TO RAIL ROAD CONTRACTORS.

PROPOSALS will be received until the 8th day of December next, for the graduation and masonry of the first ten miles of the Gainesville and Narkeeta Rail Road. A profile of the route, with plans and specifications of the work, will be exhibited at Gainesville for ten days previous to the time of letting and all other information given, on application to the Subscriber or to the Assistant Engineer. Recommendations will be expected in all cases, of persons not known to the officers of the company or to the Engineer.

For the information of persons at distance, it may be remarked, that the road commences at the town of Gainesville on the Tombeckby River, and expends 22 miles south west to Narkeeta in the State of Mississippi. The Tombeckby is navigable for Steam Boats the greater portion of the year and having a direct communication with Mobile New Orleans, will afford facilities for procuring the supplies necessary for the hands employed on the work, or for their ready conveyance hither, if procured from a distance. The country through which the road is located, being perfectly healthy, and the mildness of the climate admitting of operations throughout the winter season renders the contract peculiarly desirable to those wanting winter employment. To an enterprising and energetic contracter the construction of this road offers the prospect of a profitable job.
