TO RAIL ROAD CONTRACTORS.

PROPOSALS will be received until the 8th day of December next, for the graduation and masonry of the first ten miles of the Gainesville and Narkeeta Rail Road. A profile of the route, with plans and specifications of the work, will be exhibited at Gainsville for ten days previous to the time of letting and all other information given, on application to the subscriber or to the Assistant engineer. Recommendations will be expected in all cases, of persons not known to the officers of the company or to the Engineer.

For the information of persons at distance, it may be remarked, that the road commences at the town of Gainesville on the Tombeckby River, and extends 22 miles south west to Narkeeta in the State of Mississippi. The Tombeckby is navigable for Steam Boats the greater portion of the year and having a direct communication with Mobile New Orleans, will afford facilities for procuring the supplies necessary for the hands employed on the work, or for their speedy conveyance hither, it procured from a distance. The country through which the road is located, being perfectly healthy, and the mildness of the climate admitting of operations throughout the winter season renders the contract peculiarly desirable to those wanting winter employment. To an enterprising and energetic contractor the construction of this road offers the prospect of a profitable job.

SALE OF LOTS AT PENSACOLA.

THE Pensacola Land Company having divided a portion of its land into building lots, in anticipation of the increase of population of the city of Pensacola, will offer a portion of them for sale at public auction on the first Monday in December next.

The Rail Road between Pensacola and Columbus, in Georgia, being now in progress will be completed under a contract, for the distance of 98 miles by the 1st of December, 1837. Other contracts will be entered into for the rapid extension of the road towards Columbus and Montgomery. The completion of fifty-two miles of the road, it is estimated, that at least 20,000 bales of cotton will be drawn from Messrs Perry, Conecuh, Butler, part of Montgomery, Pike, Covington, and Dale counties in Alabama. The completion of the whole line of Rail Road to Columbus and Montgomery, will exhibit a rich and fertile country, producing at least 300,000 bales of cotton, tributary to Pensacola, as its most convenient market port.

The surveys of the Road from Pensacola to Pickely, in Alabama, distance 50 miles, have been made and resulted most favorably as to the very great facilities which the intervening country affords for Rail Road improvement. This road will be put under contract, and completed as soon as possible, by which a line of communication will be opened between Pensacola and the waters of the Alabama river.

The Pensacola Land Company and the Pensacola Association are composed of gentlemen residing at Philadelphia, New York, and Pensacola, of respectability, intelligence and large capital, who are determined to make Pensacola what nature seems to have designed it to be, a great Commercial Mart, by connecting it with the rich regions of Alabama and Georgia.

The Rail roads now in progress and to be commenced, opening great lines of inter-communication cannot fail to prove most favorable to the interests of Pensacola, and to offer great inducements to persons of small means as well as large capitalists to make good investments.

The Pensacola Land Company have delayed offering any portion of their Lots for sale in Pensacola, until they were assured of the actual commencement and progress of the great works of improvements which could alone make their property valuable. The increase in value will be consequent on the progress of the Rail Road improvements towards completion, and of the immense expenditure of value which will be thereby given to the country connected with Pensacola.

The Pensacola Land Company will offer one-fourth part of their Lots in Pensacola, in December next; on the most liberal terms, pledging themselves that the sales shall be without reserve and bona fide. The sale to take place at Pensacola.

The terms will be:

One fifth cash
One fifth at one year
One fifth at two years
One fifth at three years
One fifth at four years

For notes drawn to the satisfaction of the undersigned and bearing mortgage until finally paid.

Pamphlets, together with Lithographic Maps of Pensacola and surrounding country in Georgia and Alabama, can be had on application to the following gentlemen:

TO THE SUGAR PLANTERS OF THE STATE OF LOUISIANA.

WE the undersigned, convinced of the infallibility of the process for

MANUFACTURING SUGAR

discovered by Mr. Joseph Nicholas, deem it a duty which we owe not only to the inventor, but to our fellow planters, to issue this publication in order to caution them against all malicious attempts that may be made to injure the inventor, and deceive the planters themselves.

We refer to those gentlemen who have tried the process, but have not had time to sign the present, and among them to Messrs Pierre Lefebvre, Fazende, Verbois, Dussau and Lebeuf.

It is our firm conviction that it would be highly advantageous to all planters to subscribe, and thus avail themselves of Mr Nicholas' valuable discovery of making sugar, if they but adhere to his method, in a few hours they will be enabled to make with the greatest ease, sugar of the first quality, and that would receive a preference over all others. We therefore request each and all of those, will with us, accord the meed of praise to Mr Nicholas, and aid in having his important invention adopted throughout the State.
