REMARKS.

Business in general remains in the same depressed state as heretofore exists in every branch are on a very limited scale, so much so that it is thought but little or no improvement.

Prices vary a little occasionally from our quotations but in general holders are firm at these rates.

Money is not more plentiful than for some time past, and no one can expect that it will be even so soon, as to cause, very little is looked for from that source.

On Saturday advices were received from Liverpool to the 5th inst. and on Thursday from Havre to the 12th of the same month. There had been a further decline in the Liverpool market of from 1 to 3/4 per lb on Cotton, and a corresponding forced sales at a greater reduction; the market is reported to be very much unsettled, and in consequence it is difficult to make accurate quotations.

The money market continued under a great pressure, and the previous week's accounts had rather increased.

There does not appear to be any more specie in the country than, in this in regard to money. The accounts from Havre are equally unfavorable, and a decline in the prices of Cotton is looked upon by some the present advices. France was likewise labouring under a scarcity of money, but it does not appears to be, to so great a degree in England.

COTTON—Transactions in this article continue the extremely limited, sales of the week commencing on Monday 4648 bales which were as follows viz: 26 Mississippi a 14c; 51 a 13½; 102 a 13c; 165 a 9; 147 a 8; 115 a 7¼, 7¼ a 7, 129 a 6¾, 270 a 6¼, 9 and 16 at 6c. Last prices not transpired, 194 Mississippi and Louisiana a 10, 9¾, 9½ and 9. Of the 32 a 9¼, 82 a 8¾, 65 a 7, 40 a 5½ were not transpired. Of the receipts of 7,364 Alabama and 1,000 crop, 44 a 6, 19 a 7¼. The shipments are making up generally on owners account, or through persons not holding vessels rendering it impossible to make accurate returns to the press at this season of the year. The exports to the present time amount to 437,843 bales being but 47,983 bales short of the total exports of last season to the 1st of October, and there is more on board of each ship bound to Liverpool than the whole of it. It is also difficult to come at correct quotations that we can venture to omit them.

FREIGHTS—There is nothing worthy of note doing in this line, a few ships of the first class occasionally at our highest quotations, but inferior is not looked for.

Quotations might be reduced but as there is no one doing in the article we thought it unnecessary, but would remark that those are the extreme rates.

The new crop comes in rapidly to be as hard as ever, and more remarked as regards quality. Some of the merchants have in a measure refused to receive it on consignment, and pay Freight and insurance.

SUGAR—Sales are yet exceedingly limited, this may probably be attributed to the general embarrassment of business more than to any excess of crop, however from present appearances of quotations, and no probability of any further reduction in price.

MOLASSES—Prices continue low enough, but demand not so good as was the case, some weeks back, prices are firm at present rates.

TOBACCO—There has been a better demand, and a reduction within the last two days, there is not a large stock on hand, and higher prices are expected, during the week there was a decline of about 50c, but since there has been an advance on the last week.

RICE—This article has advanced a little within a week, we now quote it at 5½ a 6c per lb, but very few sales have been made at 6c. Dealers are generally in prepared and higher rate expected.

WHISKEY—We again reduce our quotations to 26c for common and 32 a 33 for Rectified and retail at 35 cents.

PORK—There not being any transactions, except under very peculiar circumstances we omit quotations, as there is no particular rates.

FREIGHT—Several Vessels have been taken up for Liverpool at the rate quoted, but Freight may be considered dull for Liverpool, U S

Ports Vessels are in better demand.
