REMARKS.

The general business of the city remains about the same as last week.

In groceries, dry goods and hardware there is little doing, except at retail. Flour and Provisions have advanced, the supplies of these articles being for the last two or three weeks have been very limited, and the stock consequently has become very much reduced; as the season advances fresh ones are expected to be low, consequently fancy supplies are not looked for, these two causes operated to make to-day firm at present quotations, and some are holding on for higher prices

The accounts of the Ohio River yesterday were that it was rising, but at this advanced stage of the season none in the upper rivers are not of long continuance.

Money is scarce as ever, notwithstanding the banks have suspended paying specie for their notes, which is the article we have to call money, for there is not enough in circulation for the ordinary purposes of personal and family expenses; we do not find that the banks are renewing any more facilities, to the commercial community than before their suspension of specie payment, but they may be enabled to extend their discounts in some measure after the present accustomed subsides. Uptown are those who are to the city from the Western States, and about returning were to run over it in money in a few days, and as Judge Judge they would find it much to their interest, as the country must be very bare of articles of many descriptions. The low price of the times, and the general pressure in business, has prevented date great part of Merchants in the interior from coming here to lay in their usual supplies. In this way many would benefit themselves probably more than if they had taken the specie from banks for their bills, which they could have taken to pay most for Produce.

Advice from Liverpool to the 8th and from Havre to the 5th April have been received, the former have a decline in the price of cotton; Liverpool and some of the rest to Havre and no apparent stability in the market.

COTTON—We still omit making quotations, as there appears to be no fixed rates for the article, and transactions continue to be very limited, and a part for the purpose of obtaining it we have to offer a quarter to half a cent more than we should be disposed to sell at, as there is no confidence seems to be entirely destroyed.

Sales of the week amount to 4130 bales which are as follows viz 90 bales Mississippi at 9, 98 at 8, 265 at 8 3-4, 78 at 8, 70 Mus & Louisiana at 7 3-4, 56 at 7 1-4, 55 at 7, 463 at 10 1-2 a 9, 425 at 9 1-4, 35 at — 200 at 7, 95 at 6

The Exports to this time amount to 147,175 bales, and to the 1st Oct 1836, 488,206 making an excess over last year of 341,031 bales.

FLOUR—The article appears to be entirely neglected, the transactions are so very limited they are worth nothing.

MOLASSES—We reduce our quotations to 24 a 25c, a very small demand at those prices.

PORK—In our last week's report our highest quotation was 26 per bbl and we have not heard of any sales, some are holding at 29, but we hear of no sales at any—it is thought however that there will be a buyer advance, the stock and receipts both being small.

RICE—Is in a fair demand during the week.

CORN—The small quantity of good and sound in stock and receipts verbum it has caused prices to advance, good at 75c per bushel, but we have not heard of no sales over 83, the highest of house whenever are holding at 87 cts.

WORK—We advance four quarters of Mess to $18 a 18 50 per bbl, and for light 15 a 16; there has a good demand during the week, and prices have advanced.

LARD—The article has advanced 1/2 to 9 a 9 1/2 and is the first price was made during the week to

WHISKEY—This article has provisions has not varied, we quote rectified 26 a 26 cts per gallon, common 23.

LEAD—We hear of no sales for three weeks past, the last was 8 1/2 cts per lb, as I that is the present price, there is no enquiry for it, and can no be sought for 5 cts.

FREIGHTS—We again reduce our quotations, say to Liverpool, 5/8 to Havre 1/ct and those rate nominal, plenty for vessels.
