ATOM OF THE NATIONAL CO WILLIAM H. HARRISON OF OHIO.

OHN TYLER. HENRY JOHNSON,

•

on the 4th of March next. By a reference to that sanitysis it will be seen that by electing a whig to the U.S. senate from this state the locofoco majority in that body will be neutralized. With the changes a succe of a further change to be decided by our Juelections, the whigs are already congratu he uselves upon the happy auspices under which th this state prove recreant in July, the bright hopes of our party will be evercast, the great popular move ment will be, for the first time, impeded, and the suc

ess of the next administration put in peril by a grobable adverse mejority in the U. S. conate. The New Era publishes what it calls the pop vate of Virginia and claims a lecotoce majority of three thousand. The brazen faced impudence of this pen-sioned sheet is absolutely amosing. It tells the most for instance, the whig majority in Bedford county is put down at 28, which was the majority in '36. Last April the vote was whig 595; focosoco 266—whig ma-jority 310. In Account there were no lecosoco can-Two whigs ran for Senator-Custis beat Ailwo votes and forthwith the Era puts down the whig m wards of 780. Harrison county gave 509 average locolece with a whig for whom a few scattering vote

versicast and places the majority at 1281. In the counties alone the Era's audacions mendacity ha nereesed the vote of its party nearly 1700,-This is a fair cample of the manner in which the locos have figured out a majority in the popular vote of the Ohl Dominion. Take an example or two more official returns prove this to be an exaggeration by at whig majority-a deduction of just 200 votes. And

lieution of such easily refuted stuff. We supp New York, who are all good and true locofocos, and swear by the New Era only. It won't suit this lati

ome, when a person holding his dignified and respon while station can descend to emulate the scurrility and mendacity of a leco-foco scribbler, whom the despera with daily distribes upon honesty and political ethic the people whose money he has stelent. The useful-ness of a loca-face writer seems to be measured by his want of any of the qualities which embellish society proceed in this way much longer, it will become un-cessary for a man to graduate in a penitentiary before he can take the tripod aditorial in the cause of loss-fo-

The Paris oprrespondent of the N. Y. Courier state that Linvas has acknowledged that there is America, stock to the amount of nearly 150,000 sollers, parel sol by the among of which he relibed his employe standing in the name of two persons, in trust for his and that he is to make a transfer of it.

STREMBOAT EXPLOSION.—The steambeat Green fold, which physical The Connections river, between Montogue and Burtford, was blown up on the 18th Montagin and Existers, was blown up on the 16th Moy; excassing much damage and lessoflint. The best feet before a course, and a fit heat thesest of her was derived a pad wash immediately. The engineer, the edition and a present was trible dated a revival.

The engineer was proposed to the edition of the edition of the edition and a present was trible dated as a proposed.

A CHALLENGE TO LOUISIANA AND Patriot, under the New Orleans

Whicker.—A by and accumulating continue the depress of the article. Prises semails in 23a24 cents.

propessis. A very mann and the consideration of the aniform bankrupt bill, and Mr. Dixon made a speech ir support of the original bill, and against the substitut of Mr. Wall. The subject was then postponed till to morrow. The rest of the glay was spent in executive.

sorrow. The rest of the stay was specimens of the sorrow. Washington, May 21st, 1940.

The heurs, To-day, roused the consideration of the unfaished business of the morning hour, being the bill from the senate, granting pressption rights to actual setters on the public lands. The previous question having been called yesterday, when a montion for reference to the committee of the whole was adding, the speaker decided that the previous question having been called yesterday, when a montion for reference to the committee of the whole was adding, the speaker decided that the previous question having been called yesterday, when a montion for reference to the committee of the whole was adding, the speaker decided that the previous question of the speaker decided that the previous question of the operation of this bill to the banks of the reference to the committee of the whole was adding, the speaker decided that the previous question of the operation of this bill to the banks of the reference to the committee of the whole was adding, the speaker decided that the previous question the speaker decided to actual setters on the public lands. The previous decide whether this bill shall apply to their banks of decide whether the bill shall apply to their banks of decide the bill shall apply to their banks of decide whether the bill shall apply to their banks of decide whether the bill shall apply to their banks of decide whether the bill shall apply to their cales of the results of their cales of the results of the reference to the committee of the whole and the same than the previous question and the same the same than the call apply to their banks of their cales of the results of the Mr. Casey appealed from this desision, and contended that the areviews amention would be the energe ment of the bill.

Mr. Hapkins moved to lay on the table, this appear

and the whole subject, carrying the bill itself alo with it. The immediate question pending this mor ing was on agreeing to this motion of Mr. Hopkis

ing he had found reasons to alter his decision:—an From this decision Mr. Lincoln appealed.

cision of the chair; and determined in the affirmative cision of the char; and determined in the affirmative. So the house decided that the question should be taken on the engreasment of the bill. Just at this critical point, the speaker assounced that the morning hour had expired.

On motion of Mr. Atheton the house resolved itself into committee of the whole on the state of the union,—Mr. Banks, of Va., in the chair,—on the bill to provide for the collection, and keeping, transfer and disbursement of the public revenue; the question being on the motion of Mr. Cushing to strike out the enacting clause.

being on the motion of Mr. Cusuing to strate our ne-enacting clause.

Mr. Cushing, who held the floor from yesterlay, then proceeded to state his reasons for the motion, entering largely into the demerits of the bill, and analyzing its provisions, objects and tendencies. Before entering into the main subject, Mr. C. ad-verted to the cry which had been raised during the dissemulation of the civil list bill, as to the wante of the various branches of the piblic service, and the neces-tics of seasons annecediations for their support, especi-

Tabley.

Bankruptey, in the constitution, is the subject of legislation. The law must apply to the subject in it popular meaning; and bankrupteies being occurrence in the lives or fortunes of individuals, they exist

and and if one Bank is to be exempted two it, while others are subject, it is vain to call the labr uniform.

Mr. Warmen then precreded to notice the intersion of the operation of this bill to the banks if other curporations of the States. What he salerd, the object of bringing m the Banks? It is, ondess by the test of the paper circulation sound. The utility praper tance, and practicability of this he could easily shelvestand, if the law is to be uniform. But that utility or preticability instantly vanishes, if you give, including the power to do the very thing which it is down in the power to do the very thing which it is down is reason to be level their own laws, against scopening that was rejacctory, and there is reason to be level that they week to much less significant to object of Mr. Wall's substitute is to pass very avere penalties upon the Banks, and yet give to the States the power to except their institutions from these very penalties. If this should be done, said Mr. Wassrax, the anction of the genate will be given to the suspension of specie payments by the banks. The cenate will be, infact, justifying the State legislature in the law of the framers of the Constitution? Look at what they did in regard to the power of coining money. They prescribed that it should be left to Congress alone.

We might as well (he added) give to the states the power of coining what mosey they choose, and, visite contracts, as pass a law of this kind, and then give the states the power of coining money. They prescribed that it should be left to Congress alone.

We might as well (he added) give to the states the power of coining what mosey they choose, and, visite contracts, as pass a law of this kind, and then give the states the power of the constitution. Mr. Webster then proceeded to ask the question.—Does the Constitution possess the power to embrace the corporations of the states in general Bankrupt control of the constitution of such a law upant belt section of the constry.—

If the shale his of the states the opi

analysing its provisions, objects and trachecies. Residual control of the states in special Barten. See that the state is not the state are relied during the states in which all the services in the companions of the cities in special Barten.
