S 44 4

The senate then resumed the consideration of the bill for the mare efficient collection of the prevent;—and the question being still on the amendment offered by Mr. Huntington, in regard to the admission of testisnosy mentioned in my letter of yesterday, the delate was continued by Mesers. Clay, of Kentucky, and Hutbard, in favor of the amendment; and by Mr. Calhoun being suddenly called away to the sick bed of Mr. Dixon H. Lewis, who was suffering from severe indisposition, the debate was suppended; and the senate, which has really very little business to do, adjourned.

In the House of Representatives, Mr. J. Quiney Adams obtained leave to present a report favorable to

This morning the heavy voice of the cannon, the rattling drum, and the busy note of preparation for a day of festival is heard in all parts of the city. Many parties are leaving for various points in the country selected for some local attraction. An immense nu her are gone to a whig meeting in a neighboring coun ty-the administration party have also anno meeting to take place somewhere, but I have heard fi-tle of it; indeed, whig meetings seem to be ther only attraction now to both parties. The probability, which administration, has created here, as well as clowher a thirsty curiosity to investigate with less of prejudic from the arowal of the whige the major only or tone from the arowal of the whige the major was the curiosity—this spirit of inquiry—exists we know that the result must be good. If the people which have heard the treth, the power of the destructives would never have been so formidable so it has. Thanks to our system of government, it is not now too have—the rod of iron will now be taken from the después à hand, heaften his margir can convert it into a section of

r, although the emission does not take place telty, but in all the year, as may be required—now were sold at 290 dollars curreacy each—nuity of hides held by German houses slone, mated at 450,000, besides many other large parisher foreign houses. The quantity of wood other praduces also very large and sufficient \$60 or more average sized vessels.
