W-M-NEW-ORLEANS BEE

THE LAST CARD.

Everyone has been wondering what the wonderful trump would be, that Mr. Van Buren was to play, by which the friends of Harrison were to be utterly overwhelmed and defeated. We have it at last.

It came by mistake to the Sun office;—a miscreant who has attempted to play this card, thinking, no doubt that the South continued to be locofoolish. Read, fellow Whigs! It is the most impudent and infamous forgery we have had laid before our eyes. It purports to come from the Edinburgh Review, a paper published at New York.—**BUT IT IS THE TYPE.**

It is so bunglingly executed that the most miserable wretches who have tried to palm it on the South, are defeated with their own weapons.

THE ARTICLE OBTINERABLY APPEARS IN THE ENTHANCIATOR OF THE 18TH OCTOBER.

BUT NOT A SOLIDARY NEW-YORK PAPER, WHICH LOOKED AS IF IT COULD NOT HAVE NEW-YORK PAPERS OF THE 20th OCTOBER.

It has importunity and fury on its face, and will only excite scorn and indignation at the contemptible knave and his accomplices.

To this we adduce this General Harrison's letter to Mr. Sloane, of this city:

If you vote with the South, and a friend to the free, you will still destroy yourself. That is impossible; but I repeat, that it is your duty to defend your country, to do away with the Constitution of my country.

—**Henry Johnson.**

VOTE EARLY.

We cannot too strongly impress upon the Whig members of every county, that it is more particularly important to the working men of the party, to deposit their votes in the ballot box, as soon as possible, at the approaching meeting of the polls.

Remember that your friends and neighbors, and to prevent the perpetration of fraud over the entire franchise. To one and all we would say,

VOTE EARLY.

LOOK TO YOUR TICKETS.

We hope all will look well to your tickets. See that the names are properly spelled. Remember the previous notice is that which has the following name:

WM DERYUS,

JOSEPH BERNARD,

LOEUFROY BARRAS,

JACQUES DUPRE,

SETH LEWIS.

VOTERS!

Take with you the poll tax receipt for the last year, to prevent all delay and difficulty.

Remember there are many names on the tax lists, and those voters who are not mentioned, will be probably required to produce the receipt of the tax collector.

THE POLLS.

The voter on this day at the three municipalities.

ADVICE TO THE WHIGS.

Take with you the poll tax receipt in order to avoid difficulty or delay.

NOTICE TO WHIG VOTERS.

The whig voters on public lands entered in 1838, and that as recently entered, will cast their votes after 8 o'clock to day, at the Committee House, Musson's building, in Royal street, near Canal, for the purpose of obtaining certificates, or their numbers on the entries. By doing this, the polls will be much speeded, so as will prevent the delay of searching for the voter's name on the entry, when come to vote.

THE HOME HAS COME.

The whig voters on public lands received in the month of August, and now ready to be voted, to bring them up to date, on their country, though their country is poverty.

Today the same between the people and the government is submitted for final decision. Still the slaves under which the nation labors, in its entire extent, have their

own, their business and their liberties trampled on, to the very death. Do the whigs, in their

merchandise, suffice? have not been checked by the mind and talents of the Ad-Administrator, now in this business? Has he heeded that general credit, "Proud Commerce," is the watch and reply of the government forces? or can he find no time to the infinite persecutions of the slaves in composing his annual, bi-annual, and his individual suffering, or the fraction of his life which is sacrificed to the public?

The whig nation, whose talents, strength, and honesty is his sole, need a further stimulus to the display of his duty, than the loss of business, which has been caused by the reckless attacks of the government on those interests which furnish employments to the jockey-player, and all other mercantile pursuits?

Well may the LABORER come forth to put down a dynasty that would sacrifice his son to the sentinels of the empire, and to be sent to the sentinels of the empire for him?

NOT ALL CLASSES AND CONDITIONS OF MEN unite in displaying a chief magistrate who is fast burring the Republic into a despotism, who has tampered with the government of the states, who regards the petition of the people with indifference, and who is now making laws to the entire neglect of the public welfare.

We trust our fellow-men who prefer good to evil, who prefer a sound national currency to a debased one, who prefer honest men to rogues, and who prefer the good of one man, who is destined to become the master of us all, to give their suffrage to the candidates of the people, to the hero, and the patriot, WILLIAM HENRY HARRISON.

LOOK OUT FOR FRAUD.

We have observed that whenever the less-favored contestants have sought more than ordinary means to secure their victory by securing the adherence of the same design. It was suggested to us on Saturday, that the less-favored had entered a large number of forged certificates to the effect intended to pass for two or three certificates to each of the polls, in order that he might, if possible, prevail. We are at every municipality.

Accordingly, we were in year after year, and year after year, to see a check or two or three, and the less-favored, to be beaten.

We therefore beseech you, BE TO YOUR GUARD.

Be watchful, be vigilant, be on your guard, and let us all, attack D UBLLE YOUR GOALS.
