THE NORTHEASTERN BOUNDARY QUESTION.

A correspondent of the Boston Mercantile Journal, stating from Bangor on Wellnesday less, say:

'Two of the young nen who accompanied the Boundary Commissioners, have arrived in this city. Iam informed that the whole ground has been carefully examined, and that the Commissioners are on their return. Their report will productly come to us by the way of Washington; and until we get it, we must put up with such information as my cavally full from those connected with the expedition.

I am informed that there is not a doubt upon the minds of the Commissioners, that the line claused by the Americans is the true line; and that no person who makes the examination with the intention of accrusing

THE WHIG CITY.

By the efficial report it will be seen that the Whig majority in the parish of Orleans is NINE HUNDRED AND THIRTY-THIREE. Though this majority exhibits a diminution of 186 votes from that of July last yet we cannot but consider it a most signal and glorious triumph. The Van Buren party were in certy respect better organized than in J. y. They were preparing for this election for months before thand. They entered upon the courses full of hooe

The Van Buren party were in every respect letter organized than in J. y. They were preparing for this election for months before thand. They entered upon the context full of hope and hoazing in advance that they would reduce our majority to a mere fraction. They made a lumder and fifty more land votes than the Whige. They tolied, and labored, and exerted themselves in a manner we have never before witnessed, and withal they are beaten 933 votes.

We cannot stint an iota of praise from the just tribute due to the indontial le Whige of Orleans. They fought the adversary with firmness to the last. The vote they have given proves their strength, and if loco-forcis—m has gained a tride on the sagregate majority, it is only because in July the partizans of Mr. Van Brunch old not make the same exertions which they did in November. In July test, excluding the half out that the pusper had touch the same exertions which they did in November. In July test, excluding the half out that the pusper had received an exercise of the pusper had touch the body. Mr. Fredergast begod to rever years a little over 900. We have, therefore, held our most eanguine anticipations. With the exception of Orleans, nearly every parish shews an increased Whig majority. The State is make for Hanmon by thousands.
