Commercial.

DOMESTIC MARKETS.

BILLS TO SHIPS.
NEW YORK, JUNE 24.
The Cotton market has been extremely dull since the arrival of the last Coast steamer, and the latest arrivals, which are, I believe, up to date, will be even more so. The market is now at \$11.25 per hundred, and is likely to remain there during the present period, if no new arrivals appear.

The buying of the market has been the same as before. The principal market has been made at \$11.25 per hundred, at which price it is now held, and though some purchases have been made at \$11.50, it is still held at \$11.25. Michigan 100 is also in second hands, and is remanded for re-

examination.
