GUILD'S PATENT COOKING STOVES CALLED "QUEEN OF THE WEST."

THE undersigned, agent for the sale of the stoves for the first time introduced to the notice of the New Orleans public, begs leave respectfully to solicit public attention thereto.

He refers to the subjoined flattering testimony as to its economy, powers and general utility.

We, the subscribers, having used for some time Guild's Patent Cooking Stove, called the Queen of the West, do not hesitate to recommend it to the public as the best article for cooking now in use. It occupies less room, is more convenient, economy and general usefulness, we think it surpasses any other cooking stove that we have seen. It covers the top opposite to one great desideratum not heretofore attained—an oven, capacious, and at the same time heated constantly and uniformly over every part, and the heat applied to it during the whole time, and with the least possible quantity of fuel; and the different sizes manufactured seem capable of supplying the wants of all, from the smallest family to the largest hotel and steamboats.
