PLATINA CEMENT.

DR. ACHILLE LION, Dentist, of the Faculty of Paris, after many researches, has discovered this valuable composition, which he terms Platina Cement, for stopping decayed teeth, and eradicating tooth-ache. The composition of the Platina Cement, which is entirely mineral, is incorruptible, it is not acted upon by the strongest mercurial and speedily acquires the hardness and consistency of the enamel of the tooth when in its purity. It will last for many years, not only as a preservative of the tooth, but also to render extraction unnecessary.
