The same member on behalf of the Police Committee offered the following report and resolution which, on motion, were adopted after dispensation of the rules:

The Police Committee, to whom was referred the letter of this municipality, have the honor to submit the following views and would respectfully advise the adoption of the accompanying resolution.

Your committee are of opinion that if the commissioners are in addition to their innumerable duties, compelled to serve citations from the office of the Recorder, they certainly must necessarily neglect some part of their duty. When this honorable body takes into consideration the extent of this municipality and that but two commissioners are employed, it must be a matter of surprise that no few complaints are brought against these officers. The reasons given why the commissioners should serve the citations, are, that they are intrusted in receiving one-half of the fines. Your committee will not admit that these reasons are correct, for they consider any ordinance passed by the Common Council granting one-half of the fines to the officer giving the information as a direct violation of the law and must be null and void, ter Bullard and Curry's Digest Page 220—law fully satisfied your committee on this point. The duty of serving citations is the duty appertaining to the officers of the Police and particularly those attached to the Recorder's office. There are in this municipality a great many vacant lots, the owners of which have never been called on, nor has any taxe been collected thereon: Your committee have reference to the lots situate within the taxable limits of the municipality. Your committee are of opinion that if any increase of duty is to be imposed on the commissioners, that it would be more profitable to the municipality, to obligate commissioners to sell and assist the Surveyor to locate one or two of the above mentioned lots and that after they have been regularly advertised according to law, that this honorable body shall cause them to be sold at public auction for the municipality. Your committee therefore offer the following resolution:

Resolved, That from and after the passing of this resolution, it shall be the duty of one or both of the commissioners, as the case may require, to aid the surveyor of this municipality, in making out a list of all the vacant lots situate in the taxable limits of this municipality, and it shall further be the duty of the said surveyor to draw up a plan of said lots, and submit the same to the council of this municipality, as soon as possible.

G. DE FERIET,
J. F. BARTHELEMIE.

Resolved further, That the Mayor is authorized to draw the necessary deeds to grant the aforesaid gentlemen said privilege during the said period.

Mr. De Feriet offered the following resolution, which, on motion, was adopted after dispensation of the rules:
