OFFICIAL

SEVENTH LEGISLATURE.

HOUSE OF REPRESENTATIVES.

TUESDAY, 12th March, 1844.

The House met pursuant to adjournment.

The following report of changes in the law of evidence granted—Mr Marcellus Veilbeau and B G Thibodeaux.

Mr Rand submitted to the House the memorials of Bank, Benjamin & Co. and of Hendrick Lopez, capitalists of Europe relative to the bonds of the State.

On motion, the same were referred to the Committee on Finances.

Mr Bryant also submitted to the House a petition signed by country inhabitants of the parish of St Martin remonstrating against the annexation of a certain portion of said parish to the parish of Lafayette.

On motion, the same was referred to the same Special Committee, to whom the bill entitled:

An act to define the boundary line between the parishes of St Mary, St Martin and Assumption, and have referred to a few days since. Said bill accompanied the petition, remonstrating against the annexation of said portion of said parish.

Reported said petition was referred to the Committee on Executive and Judicial Powers and Grievances.

Mr Brewer laid before the House a petition of the country citizens of the parish of Rapides, praying that country citizens of the Republic of Texas, and formerly of said parish.

On motion, the same was referred to a Special Committee of three.

The Speaker appointed Messrs Brewer, Benjamin, and Phelps on said committee.

Mr Benjamin laid before the House the memorial of the Directors of the New Orleans Gas Light and Banking Company, praying that they and their associates of the parish of Rapides may be created into a corporation for the purpose of establishing a Bank and Light & Banking Company. Said memorial was referred to the Committee on Banks and Banking, with the consideration of certain privileges of the said constitution.

On motion the same was laid on the table, subject to the call of the House.

The same memorial, the rules being dispensed with, and introduced without previous notice, a bill entitled:

An act to amend the charter of the New-Orleans Gas Light and Banking Company.

Which bill was read for the first time, and the rules having again been dispensed with, said bill was taken up for a second reading.

During the discussion, on motion, the same was laid on the table, subject to the call of the House.

Mr Brewer, on behalf of the committee composed of the Orleans delegation, to whom was referred the bill entitled:

An act to amend an act entitled an act to authorize the Municipalities of New-Orleans to establish public schools therein, approved 16th February, 1811, and the amendatory acts thereto, and to provide for the retrench the expenses of the State, &c. approved March 16th, 1843.

Submitted the following report—

The committee composed of the Orleans delegation to whom was referred the bill entitled an act to amend an act entitled an act to authorize the Municipalities of the city of New-Orleans to establish public schools therein, &c.

Have the honour to report that they do not deem it prior or advisable to adopt said bill, upon the following grounds: The bill proposes to divide the school funds between the several Municipalities of the city of New-Orleans, pro rata with the number of children attending the public schools. Under this apportionment one of the Municipalities having established and organized its public schools at an earlier period than the others, has for the present year received a greater number of children in attendance upon its schools, and would consequently absorb nearly the whole fund, which is limited at $7,500, for the parish of Orleans. This advantage could not with justice be given to one of the municipalities over the others, at the moment when those others are seriously engaged in establishing the same advantage for which she has given, and are yet but in the incipient stage of their school system. The apportionment of the fund appropriated by this bill to the several schools in new wards pro rata with the number of taxable inhabitants in each municipality, and this appears to your committee to be the most equitable basis of distribution, as the funds appropriated for this purpose are originally from the contribution of the tax payer. The mode of apportionment proposed by the bill would cause a confusion for registering the greatest number of scholars, rather than an honorable emulation for their solid and profitable instruction. Your committee therefore, have respectfully in altering the present laws on this subject, and they respectfully recommend the rejection of the bill which has been committed to your consideration.

W. H. C. C. CLAIBORNE, Chairman.

On motion, said report was adopted.

Mr Delaunay, in behalf of the committee of enrolment reported as duly enrolled, the following resolutions from the House:

A resolution inviting our Senators and Representatives in Congress to use every effort to procure the passage of an act authorizing the Governor of this State to call into the service of the United States a company of regular troops to be stationed in the parish of Rapides.

A resolution directing the Secretary of State to have published the laws of Congress relative to naturalization and making it the duty of parish and district judges to have them posted up in their respective courts.

Said resolutions, ordered, that said bill de pass as amended, and enrolled.

The Clerk was directed to inform the Senate thereof and request their concurrence in the same.

The same member then moved to lay said bills indefinitely on the table, and called for the yeas and nays, which being granted that

Messrs. Bordelon, Brashear, Clark, Couvillion, Heath, Prescott, Robertson, Robertson, Sorrigues, Sr., B. Thibodeaux, Trotter, Wainwright—10 yeas:

and that Messrs. Allen, Benjamin, Briant, Bienvenu, Blanchard, Brower, Brou, Fluker, Fuley, Fortenberry, Gaudet, Garrigues, Hunt, Moffatt, McNeil, McRae, Newport, O'Bryan, Ogden, Perkins, Phelps, Ratliff, Rogers, Wadsworth and Winchester had voted in the negative—21 nays.

So the amendment was consequently lost
