NEW ORLEANS BEE

FOR PRESIDENT OF THE UNITED STATES:

HENRY CLAY

FOR VICE PRESIDENT.

THEODORE FRELINGHUYSEN.

FOR ELECTORS OF PRESIDENT AND VICE PRESIDENT:

First District.....JACQUES TOUTANT.
Second District.....ESNON LAVERGNE.
Third District.....GEORGE B. GUION.
Third District.....LAFAYETTE SAUNDERS.
Fourth District.....JACQUES DUPRE.
Fifth District.....EDWARD SPARROW.
Sixth District.....

FOR CONGRESS.

SECOND DISTRICT,
BANNON G. THIBODAUX.
FOURTH DISTRICT,
LOUIS BORDELON.

NEW-ORLEANS:
MONDAY MORNING JUNE 10, 1844.

☞ The DEMOCRATIC WHIGS of Municipality No. 3 will please take notice that a meeting will be held at Franklin Hall, kept by Mrs. Caldwell, situated at the corner of Victory street and the Pontchartrain Railroad, on Monday evening next, the 10th inst., at half past 7 o'clock, for the purpose of appointing a committee to meet other committees of the First and Second Municipalities, in order to select candidates to the State Convention to the Legislature for the Parish and City of New Orleans.

As the above objects are of the highest importance, a punctual attendance is expected.

J CULBERTSON, President.

☞ A meeting of the DEMOCRATIC WHIG ASSOCIATION of the Second Municipality will be held at the Head Quarters, 97 St. Charles street, on this (Sunday) evening, June 10th, at half past 7 o'clock, for the purpose of appointing a committee to select delegates to the Convention and members of the Legislature. The Whigs generally are respectfully invited to attend.

WM. EMERSON, } Secretaries.
W. W. McGARITY, }

THE TARIFF—SUGAR.

Mr. CLAY, has time and again, declared his opinions to be favorable to the Tariff law of 1842, by which a duty of 5-21 cents per pound is imposed upon foreign sugar. Mr. POLK is against the Tariff law of 1842, and especially hostile to the sugar duty, against which item in the law, he spoke and wrote in the most vehement and decided manner, during the last canvas for Governor in Tennessee—in which, by the way, he was beaten.

Ah! But Mr. CLAY was the author of the Compromise law of 1833, says the *Courier*. Well, Mr. POLK then a member of Congress, voted for that law. If the measure was so odious, Mr. POLK is as responsible for its passage as any one else. But, it is known to every man in the country, who has any acquaintance with the legislation of the United States, that Mr. CLAY introduced the Compromise bill in 1832, to save the manufacturing and agricultural interests of this country from the sudden and violent shock that was designed against them by the then dominant party in Congress, on the one hand, and to prevent civil broil and revolution threatened by the free trade division of the democracy on the other. The Compromise Act did keep off the evil day, by postponing for nine years the reduction in duties that was contemplated by the free traders to be effected at once. The bill was so arranged that by a gradual system of reduction, the country might have experience of the soundness or unsoundness of the views of the "Free Traders" before the law became the settled policy of the land. This was the only compromise Mr. CLAY could extort from the ultra race of those days. To secure the country from civil war, he yielded much but he saved much also.

At the expiration of the nine years, during which the provisions of the law were to be put in force, fortunately for the country, a Whig Congress was assembled at Washington. The Tariff of 1842 was passed, and under its wholesome influence the industrial interests of the nation are now reviving. Mr. POLK, however, seems to be so wedded to the theory of party as not to be able to discover the good that is flowing from a proper protection of American labor. He would repeal the Tariff of 1842. He would cut down the sugar duty at once; for no one in the Union has attacked that duty more relentlessly, more insidiously or more continuously than JAMES K. POLK of Tennessee. It was the theme of the daily denunciation throughout a long and animated electioneering campaign. He derided the law in speeches and in written addresses. He undertook to prove to the People of Tennessee, that the citizens of the United States were taxed *seven millions and a half a Year*, to support a few nabob planters, collected together in the corner of one State and an adjacent territory. The cyphering by which he arrived at this conclusion, was discreditable enough to his sagacity, but his mind was so inflamed against the sugar duty, that he held no terms with probabilities when considering the subject. If the locofoco National Convention had gone to work to select the most objectionable candidate for the people of this State, it could no where have found one more deadly insincere to the sugar planters than JAMES K POLK. No better proof could be needed of this fact, than Mr. POLK's own declarations—written and spoken.

Witness how the free trade men crow over his nomination. Mr. VAN BUREN, BUCHANAN, &c., &c., were moderate tariff men in comparison with the Tennessee out-and-outer. The *Southern Traveller*, a locofoco paper, printed in Lafayette, is out for POLK and "Free Trade. Down with the Tariff is the slogan of party. The "chivalry" is in ecstacies over the locofoco ticket It is dealing unfairly with the planters of this State to argue to them, that they form a class privileged above the rest, and are to go untouched while others are visited by the legislation of party. The lewd and chief of that party has singled them out for especial attack. The leading journals of other States, devoted to that chief, show less favor to them than to many others. In chief, show less favor to them than to many others. In fact, the next state to us, the party has made the sugar duty a principal theme of denunciation. Even in Louisiana, a portion of the locofoco press have come out against the duty on sugar, as contrary to the spirit of the democratic creed. What could the Planter expect but destruction, should a man who has spoken and written so much against them as JAMES K. POLK has, be elected President and were supported in Congress by majorities sympathizing in his hostility to the sugar duty? We will lay facts before them, when they must judge and act for themselves.

MR. POLK'S GENEALOGY.—Since the nomination of

Mr. POLK for the Presidency has been announced, a number of papers have published accounts of his ancestry, &c., &c. In these notices of Mr. POLK's pedigree, allusion has been made to his grand uncle, THOMAS POLK, who was a good patriot of the Revolution. Of Mr. POLK's immediate ancestry in the straight line, to wit: EZEKIEL POLK (if we mistake not the name) Jas. K. POLK's grand-father—nothing is said. Will some one explain why his grand-father is not mentioned in these interesting traditions as well as his grand uncle? In a pedigree, the grand-father has more to do than his brother. Why this silence about him? The locofoco press has favored the world with a history of Mr. POLK's grand-uncle, which is so entertaining and edifying, that the people would like to hear more of the family, and especially of his grand-father.

FROM MEXICO.

Schooner *Virginian Antoinette* arrived on Saturday from Tampico, bringing dates from that city to the 1st inst. Our esteemed friend and fellow townsman, B. M. NORMAN, Esq., author of a highly interesting volume on Yucatan, came passenger in the *Virginia Antoinette*. His second visit of exploration among the ruins of Yucatan has been faithful in interesting and important discoveries, and he has brought with him a large number of specimens of statuary and other archæological remains. Mr. N. is charged with despatches for our Government from China, which came overland from the Pacific

The news from Mexico is not particularly important. Considerable excitement prevails on the subject of annexation. It is reported that Santa Ana intended convoking congress on the 1st June for the purpose of adopting measures in relation to the Texas question and the difficulties with the French Government on the subject of prohibition of the raisil trade to foreigners.

The country generally was tranquil, though speedy outbreaks were looked for. The department of Sonora was still agitated by insubordination.

A conducta from the interior arrived at Tampico on the 17th ult., with the sum of $2,000,000. Of this amount $1,650,000 was shipped to England, and the balance sent to Jamaica in the English frigate *Pique*.

☞ The New York *Evening Post*, the great gun of locofoconism in the Empire State, says of the late locofoco Convention, that if "its secret history, from the adoption of the two-thirds rule, through its various proceedings could be written, a large number of the delegates would stand disgraced in the eyes of their constituents."

☞ A correspondent of the Charleston *Courier*, writing from Washington, says:—Col. R. M. Johnson has announced his willingness to run as a candidate for the Vice Presidency on the Tyler ticket. The same writer says "the Texas question is gaining ground, and shows that the Texas question is gaining ground, and shows that side the rejection of the treaty by the Senate, a joint resolution will be passed through both houses.

CITY INTELLIGENCE.

CRIMINAL COURT.—The following cases are set for trial this morning. Henry Jumage for larceny, Robert Bowman for burglary, and Francis Kayol for larceny.

DISTRICT COURT.—The argument in the case of Sally Miller vs. Louis Balmonte and John Miller in warrantee, will commence to-morrow morning. W S Upton and C Rosalius appear as counsel for the plaintiff, E A Canonge for Belmonte and J R Grymes and Wm C Micoon for J F Miller.

UNITED STATES COMMISSIONER'S COURT.—His Honor M M Cohen, U. S. Commissioner, has decided to send the papers in the cases of Dubose and Neistrath charged with smuggling goods from on board the French ship *Louis XIV*, before the United States Circuit Court. It is probable the U. S. District Attorney will bring the case before the Grand Jury during the course of the present week.

☞ William McGhee, David Crockett and Charles Wilson were brought before Recorder Baldwin on Saturday charged with having no visible means of support. In default of finding vouchers they were furnished with board and lodging in the Work-House for the ensuing thirty days.

(CORRESPONDENCE OF THE BEE.)

DOTTINGS FROM THE DOME.

WASHINGTON, May 31, 1844.

Gentlemen:

The House spent the day in Committee of the Whole to-day, upon the Louisiana Land bill; upon the bill to pay for horses lost in the Seminole war by the Missouri volunteers—(there is no end to the dead horses Uncle Sam has to pay for)—and the bill to establish a Naval Depot, at Memphis. The two former were laid aside to be reported to the House; the latter was not gone through with when the hour of adjournment arrived.

In the Senate Mr. McDuffie proceeded with his remarks in support of his bill, during which he denounced the Tariff of 1842, as the most *infernal* and *oppressive* that ever was imposed upon a people—as a very MOLOCH, devouring the substance of the people, and more than intimated his intention of resigning his seat here, going home, getting elected to the legislature for Carolina. The Whigs generally are respectfully invited to attend.

Mr. CLAY has issued a letter, declaring his opinions to be favorable to the Tariff law of 1842, by which a duty of 5-21 cents per pound is imposed upon foreign sugar. Mr. POLK is against the Tariff law of 1842, and especially hostile to the sugar duty, against which item in the law, he spoke and wrote in the most vehement and decided manner, during the last canvas for Governor in Tennessee—in which, by the way, he was beaten.

Ah! But Mr. CLAY was the author of the Compromise law of 1833, says the *Courier*. Well, Mr. POLK then a member of Congress, voted for that law. If the measure was so odious, Mr. POLK is as responsible for its passage as any one else. But, it is known to every man in the country, who has any acquaintance with the legislation of the United States, that Mr. CLAY introduced the Compromise bill in 1832, to save the manufacturing and agricultural interests of this country from the sudden and violent shock that was designed against them by the then dominant party in Congress, on the one hand, and to prevent civil broil and revolution threatened by the free trade division of the democracy on the other. The Compromise Act did keep off the evil day, by postponing for nine years the reduction in duties that was contemplated by the free traders to be effected at once. The bill was so arranged that by a gradual system of reduction, the country might have experience of the soundness or unsoundness of the views of the "Free Traders" before the law became the settled policy of the land. This was the only compromise Mr. CLAY could extort from the ultra race of those days. To secure the country from civil war, he yielded much but he saved much also.

At the expiration of the nine years, during which the provisions of the law were to be put in force, fortunately for the country, a Whig Congress was assembled at Washington. The Tariff of 1842 was passed, and under its wholesome influence the industrial interests of the nation are now reviving. Mr. POLK, however, seems to be so wedded to the theory of party as not to be able to discover the good that is flowing from a proper protection of American labor. He would repeal the Tariff of 1842. He would cut down the sugar duty at once; for no one in the Union has attacked that duty more relentlessly, more insidiously or more continuously than JAMES K. POLK of Tennessee. It was the theme of the daily denunciation throughout a long and animated electioneering campaign. He derided the law in speeches and in written addresses. He undertook to prove to the People of Tennessee, that the citizens of the United States were taxed *seven millions and a half a Year*, to support a few nabob planters, collected together in the corner of one State and an adjacent territory. The cyphering by which he arrived at this conclusion, was discreditable enough to his sagacity, but his mind was so inflamed against the sugar duty, that he held no terms with probabilities when considering the subject. If the locofoco National Convention had gone to work to select the most objectionable candidate for the people of this State, it could no where have found one more deadly insincere to the sugar planters than JAMES K POLK. Commercial.

NEW-ORLEANS, SATURDAY NIGHT, June 8, 1844.

The business in Cotton to-day has amounted to 2,300 bales, taken principally for England. The market is steady, and tolerably well supplied.

Exchange on all points remains scarce, but the demand is so meagre that no advance has taken place in the rates: in addition to which some shipments of specie have tended to counteract the upward course of the market We quote London, 8½ @ 9¾ ₰ cent. premium.—Paris, 5 26 @ 5 27½.—New-York, 50 days, ½ @ ¾ ₰ cent. discount.—Checks, ½ @ ¾ ₰ cent. premium.

We look for the Steamer's accounts on Tuesday next.

DOMESTIC MARKETS.

NEW-YORK, May 31—Friday Night.

A large amount of business was transacted at the Board of Brokers this morning. Ohio and Kentucky Stocks closed at yesterday's rates. Illinois Bonds advanced ½ ₰ cent; Indiana, ½; North American Trust, ½; Erie Railroad, ¾; and Norwich and Worcester, 1 ₰ cent. Long Island Railroad declined ½; Farmers' Loan, ½; Paterson Railroad, ½; and Stonington Railroad, ¼.

At the Public Sale, Exchange, Erie Railroad improved 1½; United States Bank, ½; Girard Bank, Philadelphia, ½; and Norwich and Worcester Railroad, ½ ₰ cent. Farmers' Loan fell off ½; Long Island Railroad, ½; and Mohawk Railroad, 1 ₰ cent.

During the present month Stock speculators have been very active as we have ever known them, and prices of all descriptions have greatly advanced. We note particularly the stocks of Ohio and Kentucky among the list of the 1st, which have advanced nearly 10 per cent. from the lowest quotations of last month The abundance of money and the certainty that the interest of both these States will be regularly paid have caused this advance. These stocks are now favorable subjects for investment, and are taking rank in point of character with those of New York.

The passage of the Pennsylvania Tax *Bill* has created a very repid improvement in the stocks of that State. This is based upon speculation to a certain extent, but much of it is owing to the increased confidence growing out of the belief that the interest on the State debt will be punctually paid. These Stocks will be regularly paid have caused this advance. These stocks are now favorable subjects for investment, and are taking rank in point of character with those of New York.

The passage of the Pennsylvania Tax *Bill* has created a very rapid improvement in the stocks of that State. This is based upon speculation to a certain extent, but much of it is owing to the increased confidence growing out of the belief that the interest on the State debt will be punctually paid. These Stocks will be regularly paid have caused this advance. These stocks are now favorable subjects for investment, and are taking rank in point of character with those of New York.

The account to the 10th April per Hibernia, were received here on the 30th May, and had little effect on our market, the decline in Liverpool having been anticipated. Those per Britannia, reached us on the 20th Instant, and caused a change in the feeling of our Merchants here. The decline in our market, being the result, in part, of an ov-stock, the absence of all speculative demand, the unfavorable state of the money market, and the effect on Foreign markets of our increased estimates of the crop; and the low limits of orders for Foreign a count.

The decline in Cotton is progressing, as to the extent of the stock now in the city, we are of opinion that the amount assumed as taken by our manufacturers is correct, but the stock now on hand at 145,000 bales, which at our quotations, with the advantages of freight and exchange, affords a profitable investment to the Union either for the execution of orders from abroad, or for shipment on American acc-unt.

Freights continue dull, but little has been done during the month principally to Liverpool, and the rate has also declined to the present currency [1-32 ₰ lb.] Sales to Havre, 5-16 ₰ lb. have been dull at 10 ₰ There is found; to Hamburg, for light freights, 5-16 ₰ lb. There is more doing in Cotton freights to north and south of Kinsale.

In EXCHANGES, we have had a fair demand, without an abundant supply of Bills, the rate for sterling, has been uniform throughout the month at 9 ₰ cent. premium within a fraction, which time the usual demand for the Steamer has existed, and the rate has advanced to 9 @ 9¼ ₰ cent., at which there is good demand, with a probability of a further advance.

We remain respectfully your obt. Servants,
STEWART & WRIGHT,
Brokers, Tonzine Building, corner Wall and Water sts
