CORN—700 sacks white corn, landing and for sale by
HARTWELL, KIDDER & CARMAN, 66 Poydras

TARRANT'S EFFERVESCENT SELTZER APERIENT—This preparation strongly recommended itself in the favor of the public from its positive medicinal virtues, and from its great success in the cure of Billious attacks and Febrile Diseases, to which the variable climate of New Orleans is so subject. Prescribed in such cases it has been found universally to afford relief, and has gained much confidence among medical men, who most generally receive its use among their patients. In a torpid state of the liver its use, persevered in for a few days, has been found to aid in restoring the functions of that important organ, in Gout and Rheumatism it has given great satisfaction. Those who have already had all the above named symptoms—it has in numerous cases succeeded in effectually curing these afflicted. Of its success in cases of fever, Indigestion, Heartburn, Costiveness, and Headache, it has invariably proved in every instance a medicine of great value.

Being one of the most delightful, as well as salutary purgatives, now before the public, it possesses all the medicinal virtues of the most approved Saline Aperients, with the sparkling effervescence of soda water, and as it acts gently upon the system, it restores the digestive powers the bowels to their natural, and healthy tone, and strengthens the stomach, giving to the patient renewed health and strength. It strongly commends itself to whatever person going to sea, as its virtues being equally efficacious on sea or shore or in any climate, it may be used with greater facility than any other purgative.

Testimonials from gentlemen of high standing in their profession, here and abroad, strongly guarantee its efficacy and valuable character, and nominate it as the favorable notice of an intelligent Public.

TESTIMONIALS.

FROM THOMAS BOYD, M. D.

"It affords me sincere pleasure to add my favorable commendation to your list of valuable testimonials of the character of your Effervescent Seltzer Aperient. It is a most palatable, delightful and cooling effervescing draught, and possesses medicinal properties highly valuable in these climates. Its operation is mild but effectual, rendering its taste more agreeable, and its mode of use far easier and more convenient than any similar preparation I have ever known. It unites, in a happy manner, mild and effectual. Its truly beneficial qualities commend it strongly to the notice of the public."

(Signed) THOMAS BOYD, M. D.
To Mr James Tarrant. No 201 Fourth street.
New Orleans, Jan 1, 1844.

FROM JOHN W SCHMIDT, Jr, M D.

"I have frequently used and prescribed Tarrant's Effervescent Seltzer Aperient, and know of no remedy so pleasant to the taste, so mild in its operation, and which is almost entirely supercede the use of Seidlitz Powders, and other mild laxatives. It also possesses anti-acid properties which render it valuable in cases of Seidlitz. Being particularly adapted to pregnant women, and in Sea Sickness, when constipation is an attendant."

(Signed) J. W. SCHMIDT, JR., M. D.
To Mr James Tarrant. No. 6 Warren street,
New York, Nov. 1, 1844.

FROM JAMES H. ROGERS, M. D.

"Having made use of Tarrant's Effervescent Seltzer Aperient, I cheerfully give my testimonial in its favor. It is a pleasant, efficient, mild and safe purgative. It is convenient and portable, mild and efficient in its action on the system; enervants by evacuating and is agreeable in the operation. I have delighted in effervescent draughts, recommending Soda Water to the taste, and imparting as the consistence of the Bicarbonate of the famed Seltzer of Germany. It has none of the objections usually attending the operation of the ordinary purgatives. To persons visiting or residing in warm climates, it will undoubtedly be a source of pleasure and the first one of the kind ever offered to the public.

(Signed) J. H. ROGERS, M. D.
New York, Nov. 14th 1844. 76 Clinton Place, New York.

FROM EDWARD G. LUDLOW, M. D.,

Trustee of the College of Physicians and Surgeons, in the City of New York and Consor of State Medicine.

"I can with confidence recommend Tarrant's Effervescent Aperient as a mild and agreeable laxative, and as superior to Seidlitz Powders, for use in warm climates, where cooling purgatives are so frequently required. It is invaluable."

(Signed) EDWARD G. LUDLOW, M. D.
To Mr James Tarrant. No. 636 Broadway.
New York, Nov. 12, 1844.

FROM GEORGE WILKES, M. D.

Surgeon at the New York Eye and Ear Infirmary

"I have given your Effervescent Seltzer Aperient on several occasions, and am happy to say that it has given me entire satisfaction. From its mild and gentle operation on the bowels, it is invaluable to females during pregnancy, relieving the sick head ache and nervousness so prevalent. Prescribed in such cases it has been found universally to afford relief, and has gained much confidence among medical men, who most generally receive its use among their patients. In a torpid state of the liver its use, persevered in for a few days, has been found to aid in restoring the functions of that important organ. In Gout and Rheumatism it has given great satisfaction. Those who have already had all the above named symptoms—it has in numerous cases succeeded in effectually curing these afflicted. Of its success in cases of fever, Indigestion, Heartburn, Costiveness, and Headache, it has invariably proved in every instance a medicine of great value.

Being one of the most delightful, as well as salutary purgatives, now before the public, it possesses all the medicinal virtues of the most approved Saline Aperients, with the sparkling effervescence of soda water, and as it acts gently upon the system, it restores the digestive powers the bowels to their natural, and healthy tone, and strengthens the stomach, giving to the patient renewed health and strength. It strongly commends itself to whatever person going to sea, as its virtues being equally efficacious on sea or shore or in any climate, it may be used with greater facility than any other purgative.

Testimonials from gentlemen of high standing in their profession, here and abroad, strongly guarantee its efficacy and valuable character, and nominate it as the favorable notice of an intelligent Public.

TESTIMONIALS.

FROM THOMAS BOYD, M. D.

"It affords me sincere pleasure to add my favorable commendation to your list of valuable testimonials of the character of your Effervescent Seltzer Aperient. It is a most palatable, delightful and cooling effervescing draught, and possesses medicinal properties highly valuable in these climates. Its operation is mild but effectual, rendering its taste more agreeable, and its mode of use far easier and more convenient than any similar preparation I have ever known. It unites, in a happy manner, mild and effectual. Its truly beneficial qualities commend it strongly to the notice of the public."

(Signed) THOMAS BOYD, M. D.
To Mr James Tarrant. No 201 Fourth street.
New Orleans, Jan 1, 1844.

FROM JOHN W SCHMIDT, Jr, M D.

"I have frequently used and prescribed Tarrant's Effervescent Seltzer Aperient, and know of no remedy so pleasant to the taste, so mild in its operation, and which is almost entirely supercede the use of Seidlitz Powders, and other mild laxatives. It also possesses anti-acid properties which render it valuable in cases of Seidlitz. Being particularly adapted to pregnant women, and in Sea Sickness, when constipation is an attendant."

(Signed) J. W. SCHMIDT, JR., M. D.
To Mr James Tarrant. No. 6 Warren street,
New York, Nov. 1, 1844.

FROM JAMES H. ROGERS, M. D.

"Having made use of Tarrant's Effervescent Seltzer Aperient, I cheerfully give my testimonial in its favor. It is a pleasant, efficient, mild and safe purgative. It is convenient and portable, mild and efficient in its action on the system; enervants by evacuating and is agreeable in the operation. I have delighted in effervescent draughts, recommending Soda Water to the taste, and imparting as the consistence of the Bicarbonate of the famed Seltzer of Germany. It has none of the objections usually attending the operation of the ordinary purgatives. To persons visiting or residing in warm climates, it will undoubtedly be a source of pleasure and the first one of the kind ever offered to the public.
