SANDS'S SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

The operation of this preparation is three fold. It acts as a tonic, strengthening the digestive power and restoring the appetite, as an aperient, peculiarly suited and gentle in its laxative effect, and as an antiseptic, purifying the fluids of the body, and neutralizing in the blood the active principle of disease. The many well authenticated cures of Scrofula of the most malignant character, wrought by Sands's Sarsaparilla, have given it a wide and deserved celebrity. But it is not alone from such cases as these, or those similar to which it belongs, that the preparation has been found beneficial. It is a specific in many diseases of the skin, and may be advantageously used with favorable results in all diseases requiring a controlling influence in bilious complaints; and when the system has been debilitated either by the use of powerful mineral medicines or other causes, it will be found an excellent restorative.

"TRUTH IS STRANGER THAN FICTION."—Low YET FACTS SPEAK FOR THEMSELVES.—The following certificate is surely another link in the great chain of testimony to its merits. Let the afflicted read and be convinced; what it has done once, it will do again.

BALLSTON SPA, Sept. 23d, 1845.

This may certify that my son, now aged seventeen, has been for ten years afflicted with the Scrofulous Humor.—At the age of seven years he had the measles, which probably caused this humor to make its appearance in a most malignant way, covering his body from his head to his feet with small tumors. I consulted a Doctor of Medicine, and he examined him three days in succession, and not understanding his case, advised me to consult Dr. Rogers, of New York, I then being a resident of that city. After a long and critical examination, having more than thirty other medical gentlemen with him at the time, he pronounced it Scrofula, or King's Evil. The child was then prescribed for, and commenced taking medicine from that time.—He grew worse until June 1842, and then his feet became affected in consequence of the mercury that had been given him. A piece of bone came away from his under jaw, in the first place as large as an English walnut, a piece from his forehead as large as a sixpence, and a piece from near the crown of his head. It threw out to the back and side, and discharged in three places. From thence to one of his hands, separating in consequence of the ulceration, the muscles and cord from the bone—the uncle joint on the back part. He had at one time fifteen running sores or issues from the glands of the throat and those pieces I have mentioned. In 1840 I lived in Portsmouth, N. H. and he was attacked with a Rheumatic Fever, which settled in his hips, which resulted in a White Swelling of the other. Being under medical treatment, they gave him laudanum until he lost the constitutional effects of the narcotic and sent for a Thompsonian. His medicine helped his hip and restored his mind and reason. The third time he was attacked with this fever it was in Saratoga, when he made Sands's Sarsaparilla, and being perfectly satisfied that all other medicines had failed of effecting a cure, I went and procured six bottles, and by the time he had taken it all I considered him well. Those places healed—he became bright and lively—he came to his feet and lifted on that time till the fall of 1844, his complaints never troubled him. At that time he became deaf, which continued until last March, when his sight (or he says) was affected; from that to the left eye, covering the sight of the eye so that he was in a great measure deprived of sight.

Knowings that Dr Sands' Sarsaparilla was the only medicine that had ever done him any good, I applied to Mr. Fowle, Apothecary at Boston for more. He has but a fifteen dollars' worth, which has removed the humor from his eyes and hearing, and he now appears to be cured, and radically so. I verily believe all this latter trouble might have been avoided if I had continued thoroughly the use of Dr. Sands' Sarsaparilla when he was under the influence of the medicine at the first time.

These are the simple statements of the facts of the case, and I feel it my duty to make those facts known to the public, for the benefit of those who may be afflicted in like manner feeling a full conviction that cure has been effected solely from the effect of this invaluable medicine.

HANNAH W. BECK, 220 Main st.
