A New Fraud Contemplated. may credit the statements of letter writer om Washington, who are usually well informed in gard to political movements, a second deliberate nd systematic and well studied effort is to be made o deceive and delude the people of Pennsylvania on e subject of the Tariff. The object is to operate lectually on the October elections in that State, and should the party succeed, they will claim the issue of he contest as a triumphant vindication of the policy i the President, and an irrefragable proof that the

The mode in which this political juggle is to be conducted is described by the Washington correspondent of the Baltimore Patriot. The writer states tha he democracy of Pennsylvania are to be assured tha he new Tariff act is to be materially modified at th risuing session of Congress, with special reference the protection of Coal and Iron. He adds:—

the protection of Coal and Iron. He adds:—
In this systematic effort the country need not be surprised to learn of a cautiously and artfully worded document, from Mr. Secretary Buchanan, UNDER THE DIRECTION AND SUPERVISION OF MR. PRESIDENT POLK, Sent to the Keystone State, and circulated in the German and English languages, broadcast among the people, holding out false hopes, and abounding in promises not untended to be fulfilled! No one need be surprised to find engaged heartily in the work Mr. George M. Dallas, and certain other leaders of the party, among whom is a late Consul, who has just returned from Europe, and who, for some purpose, has been very busy with Mr. Buchanan for several days past; all being politicians who are ever ready to hood, wink and cheat the good people of Pennsyl-

people of Pennsylvania timely warning of this new attempt to yoke them to the car of an administration at has crushed them with ruthless severity, we hav our doubts whether it will succeed against the arts and re so egregiously soft as to credit in 1844, the flim ischoods about Mr. Pour's affection for and Mr. LAY's hostility to the Tariff, in utter contradiction t e example of the public career of both candidate hey may not unreasonably be expected to manife illers think proper to concoct another scheme of de iberate fraud for their particular benefit. If cheater y so transparent a humbug four years ago, they ca:

We are strengthened in this conviction by facts of ecent occurrence. When the new Tariff bill passed he Senate, a terrific explosion of indignation was eard from Pennsylvania, and notably from her der racy. Locofoco presses came to us clad in the haments of woe, and the wail of sorrow or the cry of wrath was heard throughout the land. A little month at, and we already find a large number of the lo oco journals, doubtless under the advisement of the party leaders, or stimulated to tergiversation by poter and well applied arguments, backing, and filling an ering round in the most astonishing manner-makig all manner of curious discoveries about the justic and equality of the new Tariff, and the very reason is amount of Protection the State may derive from and lastly, convincing themselves, and probably heir readers, that whatever may be the evils of the Fariff, it is far better to tolerate them, forget and for ice, grant a generous amnesty to Mesers. Polic, and PALLANAND BUCHANAN for the ruin they have wrough: nd stick to a democracy which has laid them pro trate, than to run the slightest risk of ensuring the tri

The party aders in the State, with a few prominent and praise orthy exceptions, have shuffled about most dish estly, and the people, so far as one may form an opiion at this distance, seem to have followed them heir gyrations with most commendable pertina

The Courier asks us who informed the Diet that the Canal Bank was overdrawn to the amount of half a million of dollars, and then proceeds to answer the query by admitting that about a month ago it appeared from a statement of the Treasure, that drafts upon the Canal Bank had been issued to a much larger amount that the money deposited there to the credit of the Government. True, those drafts have most yet found their way to the Bank, and the President of that institution has been officially notified that funds have been transmitted to meet them. Adopted a resolution authorizing the committee on Improvements the about an amendment of Mr. Hagan. the Government wished to avoid the imputation wer drawing, they should have placed the funds first nd drawn afterwards. As it is, the drafts might have reached the bank first, and then the Treasury ould have been in a nice little predicament. The rest of the Coarier's tirade is mere " leather and prunella." 'The Whigs don't object to a sound

General Cas-rillio's administration was progressing quietly, and there was every prospect of order and tranquility being preserved. The Republic of Bolivia was also doing well. News of the war with Mexico had reached both Valparaiso and Lima by the steamer Ecuador from Panania, which now runs monthly between that port and Callao—leaving the former on the 23d or 24th, and reaching the latter on the 6th of the following month. LOCOFOCOISM always manages to profit by every ther ism. It has played fast and loose with Mormonism, abusing, denouncing and persecuting it, when not needing its services, and cajoling and flattering its followers when in want of their votes.--With abolitionism, it pursues a pretty and intricate ame. It sympathizes with that great doctrine hugey; prevails upon its partizans to run separate tickets eechifies for them, and exhibits the warmest sympathy for the "L berty men" until election day, when it turns quietly round and votes the party ticket. There are in the North Whig and Locofoco Abolitionists.— The only difference between the two is, that the fororganization; the latter being encouraged by the Locofocos, are sure in the long run to stick to their poli cofocos, are sure in the long run to much to their pointed creed. Locofocoism is a capricious maw and a strong stomach. It will swallow fifty other " imms" at a galp, and disgorge none of them. It has the capacity of an ostrich; nothing interferes with its diges-

How to Economize.—The Alexandria Gazette thinks that the enormous expense of long sessions of Congress may be saved hereafter by a proper understanding, in advance, with the President upon the subjects to which he intends to apply the veto.

Why not dispense with Congress altogether? It is a very useless appendage, according to the practice of this Locofoco Administration. Let the President issue his mandates and let the people obey! Our Government would then be a very simple machine, and

The St Louis Reveille, of the 21st August, contain ome additional information in relation Bent's Fort, dated August 1st. Mr. P.'s express arrived at Fort Leavenworth on the 14th, making the trip in the short space of fourteen days. All of the troops, including Captain Sumper's and Cook's companies, had arrived at the Fort, and expected to be in Santa Fé by the 12th instant. Captain Moore had reomanny of the Key Sione State are the partizans of captured three Mexican spies, where he intellgence to the Mexican authorities. Gen. A Nove. Bequest.—The Academy of Moral and Political Sciences, says the Paris correspondent of the Boston Atlas, has been authorized to accept the legacy bequeathed to it by M. Singer, a merchant of Paris by his will of the 18th August, 1845, of an annual rente of 1200fr. This legacy, to be employed in tounding four perpetual and annual prizes, to be called the "Singer Prize." The amount is to be divided into four sums of 300f. each, and to be awarded—1, to the individual who shall have, during the last year, displayed the greatest course and humanity in saving shipwrecked persons from drowning. 2, to the persons who shall have saved the lives of one or more persons who shall have saved the lives of one or more persons from fire: men belonging to the Sapeurs Pour piersto be eligible as candidates for this prize. 3, to the driver of a public carriage, whether two or four wheeled, who shall have given the greatest proof of coursage and humanity in the department of the Haut Rin.

To the French Editor of the Bee :-On one point you have agreeably disappointed tasome additional information in relation to the Santa

It is further stated that on several occasions the Mormons have broken up meetings of the Anti-Mormon authors broken up meetings of the Anti-Mormon account of the Anti-Mormon accounts and the state of the control of the Anti-Mormon accounts are considered from account of the account of the adversaries. The excitement is deepening every day, and a movement attended with important results may be shortly expected.

On the other hand, the Hancock Eagle (the Mormon organ) says that the regulators from Green Planes and Pontoosus have sworn out writs, thirty or more miles from Nauvoo, against certain citizens, in order to get them in their hands and take their lives. It states that about 1900 desperadoes were lying in wait in a hazle thicket, to assessing the thought of the properties of t information having been sent to Pickett, Cifford and Furness against whom the writs had been obtained they avoided assessination by declining to obey the warrants. No one, says the Eagle, but those who reside here can have the least idea of the cruelines and oppression which our citizens labor under. Every interference that can possibly be made to prevent the sale of Mormon property is constantly going on.

Mr. Datour moved that both the resolution and submittee the laid upon the table, subject to cell. Carried.

The rules being dispensed with, Mr. Marks' resolution for the re-organization of the Improvement committee, was taken up. That committee, according to the above resolution, should be composed of five members, one from each ward, to be elected by ballot. Adopted—7 yeas, 4 mays.

The Council proceeded to elect the members of said committee by ballot. Messrs. Hagan, Dufoar.

The Council proceeded to elect the members of said committee by ballot. Messrs, Hagan, Dafoar, Fabre, Derbes, and Wiltz, were chosen. Mr. Dafoar remarked that he was grateful for the honor conterred upon him, but he was compelled to decline it. He moved that his colleague from the 2d ward, Mr. Marks, be chosen in his stead. This motion was carried, after a short debate, and Mr. Marks pat upon the Improvement Committee.

Mr. Hagan's resolution, for the appointment, by the Improvement Committee, of officers employed in the Surveyor's department, was next taken up and carried.

A resolution from Mr. Latour, respecting the ordinance which appropriates \$500 to the Improvement Committee, to be used without the advice of the Council, and limiting that amount to \$100, gave rise to a short debate, and was finally rejected.

Mr. Hagan offreed a resolution from the annount to be used by the Improvement Committee, at \$250 Adopted. The Council then adjourned.
