For Culters's Institut Vegetable Specific,
For Lewarthus Communit, or Common Whites.
This vestations, and often dangerous diverse; is unfortunately so well known a mong all choses of families, that a detail of the proposes seems unnecessary.
To the parent berrieff, the diverse manifests inself by unequivocal exploration as delicacy, fishes, and often fails, she frequently seems to make known her condition, even to her most intime from a delicacy, fishes, and often fails, she frequently supported and the foundation had for a long catalogue of other distance, such as Slow Vegeta, attended with difficult respiration, such as Slow Vegeta, and Sweding of the Lower Extremely, and where the distorder is not cured, it to frequently distance is the distorder is not cured, it to frequently distance is the distorder is not cured, it to frequently distance is a finished by which ead in death.
To enjoy good health, all the accretory organs must be in a sound considion.
The lachryman gland would scarcely depart further from its office were it to pour forth bloody tears, than do the uterine organs when secreting the finish which gives its name to the disease in question. Whenever, then, the disease manifests itself, let the patient have rimmediate reconsors to a remedy which will restore the diseased organs to a remedy which will restore the diseased organs could accreting the particular and the second particular and the could be considered by the roverse lase of health.
Such a remedy make the sale made interests a specific of all uterine diseases, and at the same time entirely free from all ingredients which have in any degree an injurious effect unon the system.

for all uterine diseases, and at the same time entirely free from all ingredients which have in any degree an injurious effect upon the system.

This preparation is made of vegetable substances and cannot possibly injure the most delicate constitution. It has never been known to fail in a snigle case to effect a cure.

man never been known to fail in a snight case to effect a cure.
