Correspondence of the Bee. WASHINGTON, Dec. 14th, 1847. In Congress there was but little interest toheir Committees, and the House in electing a

The indications all go to prove, that we are

nothing but opposition. So far as the policy of Mr. Calhoun, are divided in oninion, as to the true basis of an arrangement with Mexico, though they generally hold the conviction, that

the Rio Grande from its mouth in the Gulf of Mexico up to the line of New Mexico, (but excluding that department from the acquisition as the Western boundary of Texas, and parcha-sing so much of the Californias, as would include Bay of San Francisco.

I am fully persuaded, that any other treats than one predicated on this basis, or one some thing like it, would fail in the Senate and only augment the embarassinents under which we now suffer. If the Executive of this Government and the reeponsible authorities of Mexico (if there he such a body) should enter into a negotiation, and the treaty should be rejected by olve i opon pursoing this course, as I am sure i

Yo k, introduced a series of resolutions to-day State Governments when they were formed .-

some it to the administration. Besides, ! stion of partitory, in which Mr. Cathoun will be

them very particularly, from any party, and whose vocation it is, to dis-turb the business and harmony of the House.

To be was forced presented to perputy and the most corrupt voting. It is high time, that these most corrupt voting. It is high time, that these most corrupt voting. It is high time, that these ournges should be fully investigated and puncturez is id. The election of Mr. Pok was non-constructed by high time, the case of the property of the property

Rynarie, whom the President subsequently ap-pointed a measurer in the Custom-House. Other elections have been carried by the same pricess, until a thorough system has been established by which the floating vote of that city, which holds

the sale of the purity of the elective franchise, this case should be moroughly probed and every particle of evidence should be collected, that the people of the United States may see the azeners by which Locolocoism reaches public station. What is truesof New York, is true of

only canon the credit of this way performed in dry orthe less of my about a property of the carried the less of my about and through you to the prejoid of Natchez, my most beartfelt thanks for the high honor they have shown me.

We need not sny how characterissic of old Za B, is the above modest and unaffected speech. The General was then conducted by the Committee of recipion to his spariments in the City Hud, and here he was surrounded by crowds of enhancement entirely. Surrounded the pressure hid somewhat sustified, we learn from the Nathez Courter—but have been told to those who while the orders and that the orders when the state of the orders of the Courter—but have been told by men whose venerury is unquestionable, that the old here was a linear. That is old here was a linear feed by Courter—but have been told by men whose venerury is unquestionable, that the old here was a linear. That be did not have shartered the nerves of old Sampson. Himself. We do not believe a world of the report—and the Courter—but have been told by men whose venerury is unquestionable, that the old here was a linear. That the old here was a linear the old here was a linear the old here was a linear to the old to those who are first the old here was a linear to the old to those who are first the old here was a linear to the old to those who are first the old here was a linear to the old to those who are first the old here was a linear to the old to those who are first the old here was length and to learn that the old man passed through the ——o, deal without faining.

A 3 o'c'lock P M, the General partook of a sumprison were drank.

1 Our County—May were a.ways he right, the coloury—May were a.ways he right, the colour of the counter of the counter of the countered from an accumulating public label and particle that the old bear of the countered from an accumulating public label and particle that the colour of the countered from an accumulating public label and the col this Locofoco experiment fully, and it is the duty of Congress so to administer the finances,

try is now in a situation to test the merits of that the public judgment may be fairly ascer-tained at the coming Presidential Canvass, up-on the proposition of a Sub-Treasury. There should be some settled policy as to the

the revenues are entrusted to the control of pattisan favorities, and by which millions after unitions have been stolen through the Swartwouts and Prices.

But let us come to the main point. The Secretary of the Treasury asks, in round numbers,

a lonn of twenty millions of dollars. Although he specifies a loan, he does not mean it. He wants the option of issuing Treasury Notes, an alternative which was voted him by the pretended Hard-Money "Democratic" majorities of the last Congress.

of the issue congress.

Its roy has yet to await the word of twenty its parallel. Its roy has yet to await 12. The memory of the gar int dead who fel in Mexen.

13. The Ladies.

Among the vocunteer togets we find one or insuling the vocunteer togets will grant every dollar that is necessary to maintain the faith and credit of the Government; but, I can discover no reason why they should place a discretion in the Anado of the Section of the Treasury. In which the company cretary of the Treasury, by which the country cretary of the Treasury, by which the country is to be misled as to the actual combition of the finances, and by which false issues are to be made up. If twenty or fifty millions are required, let them be granted in the shape of a plain and old fashioned Loss, by which the money will be paid into the Treasury, wishout the mand-about increase af the other means.

By adopting a strict loan without alternative, | FROM TEXAS.—The ship Palmetto arrived the beauties and birmings of the Sub-Treasury will be developed in all their original perfection have received a file of papers, but they contain lay--the Senate was occupied in filling out The refusal of treasury notes may temporarily higher consequence that the nation should see nower, in order that a new and better state of lieved to be the Governor elect, but some doubt

-- far hetter to check it now when an antidote the views of the Committee of Ways and Means, no bill authorizing the alternative of Treasury Notes can be or will be reported. Such a decision would be hailed, with almost universal acclamation. It might not be extatable to specu would be a great advantage. The Southern mail has failed regularly every

while the arrangement is permitted to exist. It s contemplated to offer a resolution in Con the moderate men of both parties, to fix gress to restore the former route, which was bad enough. Mr. Cave Johnson was moved to this deragnement by no spirit of that hypocritical economy, which he is constantly professing but ver practices, except in some two-penny matter diegraceful to the Department over which e unfortunately presides. The contract for the reat Southern Mail by the Chesapeake Bay costs several thousand dollars more than was heretofore paid for transporting both by the Potract rates of mail transportation, caused this ness interests of the country site not only showed, and subjected to serious loss and inconon the Treasury, merely to gratify the spite of an ignorant and bundering and antiquated offi-cer. This issuely one of the cases that comes within the scope of Senator Wescott's pres-

Austin, published in the Guzette, dated Dec'r would organize on that day. Gen. Wood is bestill hangs over the matter, on account of in-

following passages contain interesting informa-tion in regard to the finances of Texas: tion in regard to the finances of Texas:

The amount of available means in the treasury, on the 31st of October tast, (the end of the bern! year.) was \$51,238.

The amount of texable property in the State, according to the assessor's returns of 1846, was \$13,747,175, upon which the amount is \$102,478, including poil tax. The amount of texable property returned thus far for 1847 is \$45,594,695—not including Plarrison, 246ferton, Red River, Shelby, Tyber, Washington, and San Particle constries, from which returns have not yet the received. The taxes due on the returns thus far made, amount to \$107,530, and the whole amount will be about \$119,000.

There is now in the treasury, due the achool land, for the year 1846, the som of \$5,285.

The amount of means received, single the organization of the present government, to the 31st October last, were \$112,033.98.

The amount of means received, single the organization of the State, from revenue due the late government of Texas, including the amount in the reasury at the time of the shange, is an executive to the shange, is a second of the shange, is a second of the shange, is a second of the shanger, is a second of the shanger of the s

\$125,923.13. The whole estimated debt of the late Republic of Texas, as far as acknowledged by the government, and estimated by the Comptroller, is eleven millions and fifty thousand dollars—the probable equivalent value of which is estimated at \$5,526,195.

the probable equivalent value of which is collished as \$5.28,195.

The From—The Louisville Journal of the 18th, says: Were we so publish all the accounts, werbal and otherwise, which reach us in regard to the flood in the Ohio and most of its tributaries, we would have to eyclade all other matter from our columns. Suffice it to say, that throughout nearly the whole of this State the lose and dapage seatined by this callamity will amount to hundreds of thousands of dolfars, and the distress and seffering, particularly of people residing along the river bank, is truly appalling. The same may be said of other States bounded by the Olio.

The river here is still rising, but slowly—not more than three-fourths of an inch per bour. In the twenty-four hours preceding 6 affects last evening, it most 19 3-4 inches, and the water
