tion—a legislative act requiring the writ to is-sie at least three months beforehand, not having been complied with, is declared of no acount, as the constitution, the fundamental la

that the Governor resign three months previously.

The Nather Barrit — The Natchez Counter of the 18th says: The notorious runaway negro "Sol.", whose exploits have been so graphically presented to the world through the columns of our immediate cetemporary, was a soluted yesterday, by that indefatigable officer Henry A. Dillon. "Sol." solve say prepared to make a desperate resistance, having a formidable knife something less than a yard in length, but upon receiving a shot through the right arm which disabled him, he turned and ran like a man. He was captured, however, without much difficulty however, without much difficulty however, without much difficulty however, without much difficulty having a free and how a captured that the decision of the Bapenius Counter the power of the States to pass such a law. Mr. Calhoun insisted that the ordinance of 1875, being a compact entered into before the Constitution of the Linited States was adopted, the Convention which framed the insurancement which disabled him, he turned and ran like a man. He was captured, however, without much difficulty having a force and the convention of the Convention of the States to pass such a law.

The Calhoun insisted that the ordinance of 1875, being a compact cantered into before the convention of the States was adopted, the Convention which framed the insurance of 1875, being a compact entered into before the convention which framed the insurance of 1875, being a compact entered into before the convention which framed the insurance of 1875, being a compact on the linear convention of the States was convention of the States was captured. The state of Kentucky to the soverige State of Ohio, to require the power of the States have the power of the States

id passed. The general appropriate

election in the mighty State of New York. And all this had proceeded from the leninery of the South, in regard to the efforts at the North to increase their political power.

He contended that all which is property in a State, the general government is bound, under the provision of the constitution regulating commerce among the States, to protect the owner merce among the States, to protect the owner in the possession of, wherever he may take it, and that he dan only lose it as a penalty for the violation of some regulation impassed by situate of this authority under the Constitution. It was the sympathy of the South for the North that had induced the South to enter muo two wars with Great Britain. The South were prospersous under the institutions of Great Britain, and it was to result her oppessions of their Northern breithern that they come to the resule. And so a lise in the war of 1818, it did not originate in agglession upon the interests of the South. The South had done much for their Northern breither, and they were ready to do more.

There can be no compromise noises moons.

and whether the interactions to a street for the state of From the second stream in that a considerable physical force moverees will be made in autumn.
