the latest discoveries of the art, have all been cought into requisition in the manufacture of the dDr.'s Pareaparilla. The Saraparilla root, it is rell known to medical men, contains many medical properties, and some properties which are incet useless, and others, which if retained in preparing it for use, produce fermentation and acid, which imprings to the system. Some of the properties imprings to the system. Some of the properties in surface and are lost in the preparation, if they renot preserved by a scientific process, known out to those experienced in its manufacture. Moreover, these volatile principles, which fly off in varyor or as an exhabition, under heat, are the very scentim medical properties of the root, which give it all its value. port, or as an exhalation, under heat, are the very executable the reason of the root, which give to it all its value.

Gramline Old Dr. Jacob Townsena's Maran partitia.

Is so prepared that all the inert properties of the Raraparella root are first removed, every thing capable of becoming said or of fermentation, is retarded or rejected, then every particle of medical and thou it is rendered incapable of loosing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the Curre of Immunicrable Discusses.
