City Intelligence. From Texas. By the strival of the six ambing Globe, Captain Ellery, we have received as the from Galveston to the 5th, and from Brownsville to the 3d inst The Casevanse.—Since we mentioned this sub-text sentenday, the efforts of the workmen t-stop the breach have been indefatigable. The bleast accounts tast evening stated that the work have proceeding favorably, and that not mo e than twenty-five or thirty feet more of pling remained to deare. It is been not of pling

The Cholera has created great consternati n San Antonio. All the inhabitanta who are in San Antonio. All the inhabitants who are able have fled the city. The disease has been particularly severe among the Mexican popu-lation. On the 19th uit, there were 14 deaths in the town and neighborhood. man ed to be done. It is, however, so antial whether this barrier, even when cor

Ioustial whether this barrier, even when com-pluted, will prove an effectual obstacle to the im-mease force of a volume of water from one band-red and finy to one bundred and seventy-five feat wale, with a fail of about eight fest. The droadful unclemency of the weather has, in some measure, puppeded the activity of the operations, and the vo-ience of the torrent start is almost autheticant to di-brarten the lab-rer. We have hopes, however, that the gap will be firmly closed before the mass of water- can effect much damage in the rear of our city, or reach the densely insbibled quarters. We learn from the Sah Augustine Union We learn from the Sah Augustine Union that Gen. Rusk, on the evening of his arrival, on the part of ex-President Polk, presented the sword voted to Gen. J. P. Henderson, by the U.S. Congress, for his conduct at Monterey.— Gen. Henderson declined receiving the bonor in public. n public. On the 3d instant the brig Mary arrived a

Salveston from San Juan de Nicarsgua, a which place she was chartered to 123 Califor In the meanwhile, however, the torsent has flood d a large portion of the Second Municipality in the eighborhood of the New Canal, Dryades, Herculus tia emigrants, all whom were safely landed.-Ency expect to proceed by water up the river San Juan to Lake Nicaragua and to within 40 nton and Bacchus streets, and has already or ed distress and damage enough to enable one t in an imperfect idea of the fearful amount of iles of the Pacific. The Galveston New avoc which would follow our complete subjeaye:

miles of the Pacific. The Gaireston News ays: The place called San Juan Nicaragua is a micrable little port of the Morquito Kingdom, having about fifty huse constructed of reeds, or concreting resembling case, and without floors. The inhabitants, males and femaler, go nearly naked, and many of them entirely so. The country is a dependency of Great Brutan, and the Hintsh Consul is much the greatest man in it, not excepting the King humself. Its latitude is about eleven degrees this aids of the equator. From this place to San Francesch this company will have to pass over some 28 deg to the north and 35 degrees, making the vogate not much leaving west, making the vogate not much leaving the first attempt to take the route to Catifornia. But every possible comme is being taken and explored, no that we phall probably know which is the best by and by shall probably in the number of the direction of Mr. Gordon, who is President. They carried with them a smill seamer, in piecer, for the par-San Jaan to the point on the Lake nearest the Pacific port, with a mule convergance there is in plan to the point on the Lake nearest the Pacific port, who mule converging to the compa-my had been sent round Case Illorn some time ago, for the purpose of providing some vessel on the Facific coast to converging the vogate compa-my had been in readners as soon as they cross over. The following memorandum, which has been to the invading element. The New Canal, from the foot of Julia street to the commencement of the Biell Road is flooded, and the Canal itself is com-pletely full and only provented from overflowing it bind that affect to the commencement of the Bind Road is finded, and the Canal liket is com-pletely full and only prevented from overflowing its builts on this adir, by the dykes and levnes which have been hastrig thrown up. In Benton street to the water is from ergineen inches to two fiel in depith throughout its estent, and skiffs and hasts are navigeting it without fear of encoun-tering maps. Here thesa street is partially sub-omerged and the body of water lase even ettend gl to loyades areet, Gormby stanal is entirely fill ed, and is pooring its content into the classic re-gions of Melponnen, where the frogs bid far shortly to bave underputed possession. All Boulgny and its neighborhood are under water, and the Carroli to the board of the ween the termination of Lafayette and the truth of Carroliton is pretty much covered by the descending flood. The people living in the vicinity are moving away as rapidly as possible; and the roul of the water y and attrum.
