JULES FAIVRE,

Manufacturer of Pianos,

47 Conti street, between Chartres and Royal.

Leasing, Repairing and Tuning.

THE musical world will learn with satisfaction that the manufacture of JULES FAIVRE, 47 Conti street, has always one of the best assortments of Pianos. Besides the new system, of which Mr. Faivre is inventor, numerous improvements have been made by him in his Pianos. These instruments unite the advantage of bending very seldom to be tuned to a beautiful quality of voice. We remind his numerous patrons that he has just received a large assortment of Erard and Pleyel Pianos. m30

A SURE REMEDY! A PREVENTIVE!! A CURE!!!

In front is Mr. WOODWARD, the Inventor, and Sole Agent for our PAIN KILLER.

Mr. Woodward is the resident of St. Louis, a gentleman of high respectability, and during the prevalence of the cholera in that city, has watched the results of the application of our Pain Killer for this disease, and his testimony can be relied upon with the utmost confidence:

St. Louis, May 31, 1849.

J. N. Harris, Esq.—Dear Sir: You will recollect when I saw you in New London, in January last, my expressing to you my most sanguine expectations that DAVIS' PAIN KILLER would have a tremendous sale in the West this season, and my anticipations have been more than realized, and the testimony of thousands who have used it has been that they would not be willing to go to bed at night without it in the house.

In the appearance of the cholera in this city, such was the confidence in the Pain Killer as a remedy, that many who purchased it remarked to me that if we had no fears or dread of the cholera as long as they had the Pain Killer by them, and hundreds took it daily as a preventive. In no place can have a derangement of the bowels or diarrhoea if they use this medicine daily. This was the security and confidence of hundreds acquainted with it, and when their friends were attacked with the cholera they would administer this remedy in large quantities internally, and also externally by bathing and rubbing them with it, and in every case where it has been taken in any of the first stages of this disease, it has proved successful. I consider it an infallible remedy. I have not heard of an individual in my family who used the Pain Killer when attacked but what speedily recovered.

Capt. Broadwell, of the steamer Atlantic, a New Orleans packet, informed me that on one of his trips up the river in this city, that there were upwards of seventy cases of cholera on board, and the Pain Killer was used with complete and triumphant success.

The clerk informed me that he administered it to persons who were sick and in the cramps, and it gave immediate relief; but recommended that it should be early, for when the discharge of "rice water" has begun, the help of life has fled. Should this disease make its appearance among us, as is anticipated by many, in a malignant form, I am confident if the Pain Killer is used in time it will prove a perfect preventive. I have not been able to supply one-fourth of the demand. I have received orders from persons begging me to send them above quantity.

Now, for your own sake, for my sake, and for the sake of suffering thousands, make some arrangements that your orders can be supplied. Increase your manufacture, do something that a suffering world may be relieved from pain, for the time will come when the value of this nostrum will be willing to do without it a single day.

Respectfully, yours, A. T. WOODWARD.

Those using the Pain Killer should strictly observe the following directions:

At the commencement of the disease take a teaspoonful of Pain Killer in a tumbler and water, and bathe freely across the stomach and bowels with the Pain Killer clear.

Should the diarrhoea or cramps continue, repeat the dose every fifteen minutes. In this way the dreadful sensations may be checked and the patient relieved in a few hours.

N. B.—Be sure and get the genuine article, as there is some spurious stuff about the country. For sale by the principal druggists in the United States.
