Sulphur and Vapor Baths.

THE undersigned respectfully informs the public that he continues to prepare and administer these Baths at his Perfumery Establishment, No. 283, St. Louis street, between Villere and Robertson.

The sanitive virtues of these Baths is universally known in a great number of chronic diseases of cutaneous, such as itch, prurigo, tetters, scalled head, &c. They have been employed with remarkable success in other maladies, which frequently result from the sources of the medical art, such as chronic rheumatisms, gout, gravel, palsy, scrofula, engorgements of the glands, of the breasts, the lymphatic ganglions and joints. Eminent practitioners have bestowed the highest praises on the remedy, and are in the habit of prescribing it for the most inveterate diseases that require powerful sudorific agents. The success obtained by the application of treatment is confirmed by the time that has elapsed since the cures were effected.

The undersigned hopes that his efforts to give satisfaction to those who have honored his establishment with their patronage, will ensure the confidence of patients whose cases require the employment of medicated sulphur or Vapor Baths.
