BATON ROUGE Jan. 29, 1850,
Messes. Editors... It is a remarkable fact, that
whenever the services of the White members of ne Legislature are required for any matter connected with rewarding our friends, when we issue the means of doing it, educting happens by which we are either deprived of our majority on point ballot, or else it is reduced down so y of a metal of reset is spreaded down to oull, that it is impossible to learned it. In coming into office, I found the military
commandant of the department of California
exercising the functions of eivil govornor in
that Territory, and left, as I was, to not under
the treaty of Ganfalupe Hidalgo, without the
aid of any legislative provision restablishing a
government, in that Territory, I thought it beat
not to dissure that arrangement, made under
my predecessive, until Congress should take
seen action on that subject. I therefore du
not interfere with the powers of the military
commandant, who continued to exercise the
fasticions of civil governor as before; but I made
as such appointment, conferred no such authority, and have allowed no increased compensation to the commandant for his services.

With a view to the faithful execution of the
treaty, so far as lay in the power of the Executive, and to enable Congress to act at the prewell session, with as full knowledge and as litdifficulty as possible on all matters of interwell in the execution officers to California and
New Mexico, whose daties are particularby defined in the accompanying letters of instruction addressed to them severally by the proper departments.

I bild not hesitate to express to the people of

I blid not hereintee to the people of those territories my desire that each territor-should, if prepared to comply with the requisi-tion of the Constitution of the United States forth a plan of a State Constitution, and submit the some to Congress, with a prayer for admis-sion, into the Union as a State, but I did not an itelphie, suggest, or authorize, the establishmen of aby such government without the assent o ticipate, suggest, or authorize, the establishmer of any such government without the assent of Coupress, nor did I authorize any government agent or officer to interfere with or exercise an influence or control over the election of Delegates, or over any Convention, in making of incidifying their domestic institutions, or any othe provisions of their proposed Constitution—On the contrary, the instructions given by morders were, that all measures of domestic policy adopted by the people of California, must originate solely with themselves; that while the Executive of the University States were desirance.

Undershe Constitution, every State has the right of establishing, and from time to time, altering its immunicial laws and done sine metitutions, independently of every other Siste and of the Genefal Government, subject only to the prohibitioha and guarantee expressly set forth in the Cobstitution of the United States. The subjects has left exclusively to the respective States, where not designed or expected to become topics of rational agitation. Still, as under the Constitution, Congress has power to make all needful rules and regulations respecting the territories of the United States, every new acquisition of tedritory has led to discussions on the question, whether he system of involutions requestion.
