THE ELECTION—THE RESULT.

When on Monday morning we informed the Whigs that their adversaries were well organized and would struggle desperately for success, we neither exaggerated facts, nor overestimated the skill and energy of Locofocoism. The partizans of Democracy did turn out on election day and gave us as fierce a battle as we have ever had to fight. That they accomplished nothing in the First Municipality is due to our voice of warning being heard and heeded.—They were met in that quarter and driven from all their vantage grounds. The Municipality is White to the core. The four members elect of the General Council, ten out of the sixteen Aldermen, and a brilliant majority for CROSSMAN attest the manfulness with which the Whigs performed their duty. That the result in the Second Municipality was less auspicious—that Locofocoism in that section succeeded in defeating the efficient and indefatigable BALDWIN, in increasing their numbers in the Board of Aldermen, and in cutting down, to some extent, the Whig majority on the popular vote, is wholly attributable to the overconfidence and supineness of the Whigs themselves. The Locofoco wards exhibit an enormous vote; the Whig wards a comparatively slender one. Had the Whigs toiled with the same zeal and activity as their antagonists, not a solitary murmur of regret would now mingle with their shouts of triumph.

Still the fruits of the contest are substantial ones, and the Whigs have gathered nearly the entire crop. We have the Mayor, the General Council, the Municipal Councils in the 1st and 2d Municipalities where alone political issues prevailed, and almost all the officers elected by the people. The Locofocos have elected CALDWELL, Recorder in the 2d Municipality—this being the Alpha and Omega of their victory. They went to work with the determination to defeat Mr. BALDWIN, and they succeeded, in no inconsiderable degree by Whig votes. We trust that those Whigs who helped to cast one of their own party, and to put in a most bitter Locofoco, feel pleasant at the fulfilment of their wishes.

It had been thought by some that CROSSMAN's majority would have been larger; but those only entertained the opinion, who were ample enough to believe that the blow of indignation against BELL, by the Democrats, meant something more than a rhetorical flourish. Catch a genuine Locofoco refusing to vote the ticket dictated to him by a Convention or a Committee! Such a phenomenon has rarely, if ever been witnessed; and the miserable vote given to SEGAR proves conclusively that in this instance, as usual, the Locos vaunted of principle but stuck to party.

THE RETURNS.

We are yet destitute of the complete and official returns throughout the city. By some oversight, the clerks in most of the Wards neglected to prepare late for the press, and sent the votes and ballot boxes to the Mayor's office, where they will remain until 12 o'clock, to day, when they will be counted in the presence of the Mayor and Recorders, and officially promulgated. We prefer, therefore, to give general results, and await the official count.

THE MAYOR.—The vote for Mayor will not vary much from our statement yesterday morning. CROSSMAN is elected by a majority little below six hundred. The majority against him in the Third Municipality is counterbalanced by that in his favor in the Second, leaving him a round majority of nearly 600 in the First.

RECORDERS.—In the First Municipality, GENOIS is chosen by a very large majority. In the Second CALDWELL beats BALDWIN by a little over 100 votes. In the Third, SAUVENEAU is elected over COLLINS by about 150 votes. The election in the Third Municipality will be contested, on the ground of gross frauds perpetrated in the First Ward.

GENERAL COUNCIL.—We believe that in the First and Second Municipalities a clean Whig ticket is chosen, though it is not absolutely certain that no Locofoco has slipped in. The Third Municipality will of course be represented in the General Council by four Locofocos.

ALDERMEN.—The Board of Aldermen in the First Municipality will consist of ten Whigs and six Locofocos; in the Second, of nine Whigs and seven Locos; in the Third, there will be a Democratic majority.

SURVEYOR.—Pilie is chosen in the First, Dunbar in the Second, and D'Hemecourt in the Third Municipality.

TREASURER.—In the First Municipality Mr. Durel is re-elected, in the Second, Col. Garland, and in the Third, Mr. Eonard.

COMPTROLLER.—In the First Municipality Ovide Deliopa is elected without opposition; in the Second, Adolphe Layet is re-elected by a handsome majority. In the Third, McNeil is elected.

CAPTAIN OF THE GUARD.—In the First Municipality, John Youenes, the terror of evil-doers, is re-elected without opposition. In the Second, Captain Forno is chosen over many formidable competitors. In the Third, Captain Mazaret has obtained a majority.

SECOND DISTRICT ATTORNEY.—The result of the election for this office is yet uncertain, but as far as heard from the chances appear to be in favor of Charles S. Reese, who runs very closely with Perry S. Warfield.

LIQUIDATING COMMISSIONERS.—In the First Municipality, Messrs. A. Bodin and J. M. Lapeyre have succeeded by a considerable majority, though last in the field. In the Second, the Commissioners elect are Wilhelmus Bogart and W. P. Converse. In the Third, Messrs. Walton, Weider and Waite run highest. It is thought that the two latter are chosen.

RETURN OF A CALIFORNIA MILLIONAIRE.—The Providence Journal says that Mr. Stephen A. Wright, who left South Kingston several years ago for the West, and finally reached California, where he was settled when the discovery of gold was made, has just returned with a fortune of about half a million, with which, like a sensible man, he has come to live in the land of his birth.

Arrival of the Steamer.

BALTIMORE, April 19.

The steamer arrived at Halifax last night, and left 10-day at 9 A. M., with 72 through passengers. The Canada arrived at Liverpool on 2d April, and her advices caused an advance of ¼ to ⅜d. in middling qualities of American Cotton. Sales during the last two weeks 66,000 bales, of which speculation took 17,000 and exporters 5,200, nearly all of which was done the last week, in which 45,000 bales were sold.

There is an increased buoyancy in the Corn market. Flour and Indian Meal have each advanced one shilling. Coffee has risen. There was a public sale at Amsterdam, which caused prices to recede, but they have since rallied; but the market is so unsteady that quotations would be useless.

The market has been duller for American provisions, and the prices are lower, especially for Bacon Hams and Lard, each of which have receded about one shilling. American Rosin, 3s. to 3s. 2d.

Public order prevails in Paris, but political affairs have assumed a more threatening aspect.

Sugar holders show a disposition to realize, at a reduction of 6d to 1s. per cwt. At London, the market was dull, except for refined. The market for Tobacco was less active than for some time past—holders, however, are firm, and prices unchanged.

The sales for March are upwards of 900 hhds. Tallow commands 37s.

The Money market is easier, and the stock of bullion is increasing in the Bank, and exceeds £17,000,000. Consols fluctuated last week from 97¾ to 98⅝—closing at 98¼ for money and account. American stocks in good request, but we have received no quotations.

The report from manufacturing districts is better. The Manchester market for some days has been gradually improving, especially for yarn and fine goods. Freights continue high, and American vessels are scarce.

The English coast was visited by a severe hurricane on the 30th March, causing much destruction of shipping, and a frightful loss of life among the vessels lost. The *John Skiddy* gone ashore on the coast of Wexford, and totally wrecked—captain, passengers and crew saved. The *Hornet*, from New Orleans, also wrecked at the entrance to the Mersey. Steamer *Charlotte*, from Dublin, for London, wrecked near the mouth of the Thames, and all on board, numbering 300, drowned. The coast is everywhere strewed with the wrecks of vessels which have been lost during this frightful gale.

SECOND DISPATCH.

BALTIMORE, April 20.

BROWN, SHIPLEY & CO.'s Circular quotes Fair Orleans, Mobile 6¾, Uplands 6¼, Middling Orleans, Mobile 6¾ to 6⅞. Stock of cotton in Liverpool, 568,000 bales, of which 322,000 are American. The article was firm on the closing of the week ending 31st.

THIRD DISPATCH.

BALTIMORE, April 20.

LIVERPOOL, 6th.—Advices have been received from Van Diemen's Land up to the last November. Smith O'Brien and his associates had arrived there.

Ireland

The Repeal agitation had partly revived in Ireland, in consequence of the intention of England to abolish the Irish Vice Regal Government and to transfer the Judiciary to London.

France.

In the French Assembly, a proposition was made by Latoche Jacquelin for a motion to vote definitively on the formation of a government by inscribing the words "Republic" or "Monarchy" on the ballots. The proposition was received in the most profound silence, but it was not carried, when the "mountain members" vociferated "*First la Republique!*" Several angry communications passed between the parties on both sides.

A serious rupture has occurred between the governments of Prussia and and Wirtemberg the Prussian ambassador being recalled.

It is said that negotiations had commenced between the Central States of Germany and he United States, the object of which is to furnish he German States with American built vessels of war fully equipped.

Turkey.

Advices from Constantinople say that preparations are being made to conduct Kossuth and the other Hungarian refugees to Wallachia or Asia Minor, there to be confined for five years. On the 29th of March an insurrection broke out at Boutoun, (?) which was extending and increasing in strength. Two thousand Turkish troops had been defeated by the insurgents, and compelled to evacuate the fortress of Ran Gulka.

Spain

The report that a speedy reconciliation would take place between Spain and England is confirmed. The status of the Island of Cuba is causing great solicitude on the part of the Spanish Government.

Greece.

Sir Wm. PARKER has given up eleven of the captured vessels.

FROM CHAGRES.

By the steamship *Falcon*, Lieut. HARTSTEINE, arrived last evening, from Chagres 11th inst., via Havana 20th, we learn that there had been no later arrivals at Panama than was received by the *Ohio*. Every thing remained quiet at Panama.

The *Falcon* brought the following passengers:

From Chagres—A. C. Hainkle, J. Lethbridge, C. B. Tonn, J. Houser, N. Chiriat, W. May, A. Tenn, J. D. Cleve, W. Clee, J. M. Chere, L. B. Johnson.

From Havana—S. W. Weaver, F. A. Keeling, A. Seldelin, Captain A. M. Williams, J. C. Orr, W. H. Whiting, Mr. Strickland, Master Cassine, Mrs. A. Vignon, Miss Vignon, Mr. Bernhardt and lady, Jas. Robb, J. Lawrence and wife, Mrs. Bell and child, Mrs. Hall, Jno. Jas. Lawson, H. Yeiverton, H. Tulon, E. Caspee, E. Heath, Jno. Black.

From Port Nov—P. Fanuig, D. Arnaud, J. Stout, J. R. Todd, Jno. Ball, J. L. Robinson, H. E. Bannistr, W. Carter, S. Hollie, W. Danbridge.

EXPLOSION.—We learn from the St. Louis Republican, that the steamer New Orleans, bound from Cincinnati to this city, (New Orleans,) burned her starboard boiler at Salina to-head, a few miles below Shawneetown, on Sunday, the 14th inst. The explosion did considerable damage to the upper works of the boat, but strange to say, no one was killed or seriously injured. About ten feet of the boiler was blown out.

VIRGINIA AND THE NASHVILLE CONVENTION.—The Richmond *Times* says that, so far as it is informed, the following are all the counties in Virginia which have as yet moved in favor of the Nashville Convention, viz:

Amelia, Appomattox, Greenville, Brunswick, Mecklenburg, Halifax, Madison, Louisa, Princess Anne, King William, and Campbell.

The following have voted, in court-house meetings, against the appointment of delegates:

Albemarle, Augusta, London, King George, Franklin and Catoline.

No county west of the Blue Ridge has yet had a meeting for sending delegates to Nashville, except that the Democrats of Jefferson have declared themselves in favor of the measure.

☞ The *National Intelligencer* of the 16th has an article in reference to the rumors of unfriendly relations between the President and the Cabinet, in the course of which, that article pronounces these statements utterly erroneous. The *Intelligencer* says:

It is not true that the enemies of the Cabinet "have won the President over to them" nor is it true that "the President has intimated a strong disposition" to "form a new Cabinet." These events, we have reason to know, entire concord between him and his Cabinet: and there is not, we verily believe, a single member of the Cabinet who would not retire from his station instantaneously on discovering that his presence in the Council Chamber was not desired by the President. There is not, we are persuaded, one of them who is not affectionately and deeply attached to the President, and proud that he enjoys the esteem and confidence of the President, and the members of the Cabinet.

Sincere friends to the President, grateful for the services which he has rendered, and is now performing, for his country, we are rejoiced to be able to say, as we now do upon the best authority, that there is not a shadow of truth in the rumors respecting the relations between the President and the Cabinet to which we have in the preceding paragraphs referred.

Appointments by the President.

By and with the advice and consent of the Senate.

Wills de Haas, of Virginia, to be Consul of the United States for Merida and Sisal, in Yucatan.

Curtius H. Saunders, of Tennessee, to be Consul of the United States for St. Catherine's, Brazil.

J. J. Wickes, to be Assistant Treasurer of the United States, and Treasurer of the Mint at New Orleans, in the State of Louisiana.

THE HUNGARIANS.—We learn that Ladislaus Ujhazy, late Governor of Comorn, with his lady, two daughters, and three sons, Major Beresky, Captain Gaksis, Captain Kemenyi, and Captain Gonsenbis, left New York on the 13th instant for Iowa, to select land for their settlement, and for each of their brave compatriots as may join them.

☞ THIS DAY, at 12 o'clock, the Succession Sales of Hillsgberg and Eitel, will be sold at auction at Banks' Arcade, by J. A. Beard, Auctioneer. The property for sale comprises vacant Lots on the New Basin, St. Peter, Claiborne and Derbigny streets, and improved property on Religious street, near the Water Works Basin.

The terms are extremely liberal, and the property is worthy the attention of purchasers.

CONGRESS.

In the SENATE, on the 15th, the resolution directing the purchase of 2000 copies of the reports of the debates of the California Convention was adopted.

The Deficiency Bill was then taken up, and the Patent Office appropriation was passed.—Additional Clerks in the Post Office Department were provided, and various appropriations to complete public works in Washington were adopted. When, before finishing the bill, the Senate adjourned.

In the HOUSE, the Speaker announced the death of Mr. Campbell, the Clerk.

Mr. Gentry offered resolutions of respect to his memory—prefacing them with a eulogium upon the character of the deceased—which were unanimously adopted, and then the House adjourned.

In Advance of the Mail.

The St. Louis papers contain the following intelligence, which is 24 hours in advance of the mail:

SENATE.—After the transaction of the morning business, the Deficiency bill was again taken up, and the debate resumed on an amendment of no general interest.

Mr. CASS moved to strike out the appropriation for outfit for a Charge to Austria.

Mr. FOOTE expressed the hope that a provision would be made, in the amendment of the Senator from Michigan, for the re-establishing of diplomatic relations with the central Government of Germany.

Mr. KING opposed Mr. CASS' amendment.

After some debate on the general principles involved in the amendment, it was rejected by yeas, 17—nays, 29. The bill, having been amended in several particulars, was passed.

Mr. FOOTE moved to take up his motion for a select committee of 13. Mr. DAYTON suggested that there was much pressing executive business, and hoped that the Senate would go into Executive session. Mr. FOOTE insisted on his motion, and in the course of his remarks, reproved a portion of a song recently published in New York, advocating the proposed reference, and the uniting of California's admission with other measures. This he considered the latest authentic indication of public sentiment. Mr. HALE suggested that the Senate song it (Great Laughter.) Mr. CLAY suggested, as a reason why the motion for a select Committee should be decided, one way or the other, that he understood that the committee of six, appointed to convey the remains of Mr. Calhoun to their final resting place, were going to leave the city to-morrow, to perform the duty assigned them—if this were true, it was important that these gentlemen should have the opportunity of participating in the vote upon the pending question before they should leave. Mr. MASON said that the committee referred to did not purpose to leave the city until Monday next; in behalf of the gentlemen composing it, he desired to express his thanks for the courtesy that the Senate would be so arranged that no vote would be taken during their absence, on important questions pending before this Senate. After further debate, it was suggested to make Mr. FOOTE's motion the special order for 1 o'clock to-morrow. The Senate then went into Executive session, and afterwards adjourned.

HOUSE.—On the fourth trial for Clerk, Young received 55 votes; Prendle, 45; and Walker, solicitation of the Clerk of the House, 33; remainder scattering. An ineffectual motion was made to adjourn. Fifth vote, Young, 63; Prendle, 38; Walker, 57; scattering, 33. No election.

The House adjourned.

Telegraphic Items.

LOUISVILLE, April 15.

DESTRUCTIVE FIRE IN LOUISVILLE, KY.—A destructive fire occurred here on Saturday night, in the wholesale grocery establishment of Messrs. Brannon & Morton, which, before it could be subdued, destroyed the entire establishment. The loss is estimated at $20,000.

ST. LOUIS, April 15.

SNOW STORM IN ST. LOUIS.—We were visited by a severe snow storm yesterday, which fell without ceasing for nine hours. The snow now measures eight inches deep on a level.—The weather to-day is cold, but mild in comparison with what we have had for the last two days.

ST. LOUIS, April 15.

TRIAL OF THE MONTESQUIEUS.—The trial of the brothers Montesquieus, for the murder of young Barnum, is drawing to a close. The defence was opened on Saturday by Mr. Bates. Much sympathy is felt for these unfortunate strangers. The court room is daily crowded to excess, and a large number of ladies are in attendance.

ST. LOUIS, April 15.

SUFFERING AMONG THE CALIFORNIA EMIGRANTS.—Recent accounts have been received here from St. Joseph, which represent much suffering existing among the California emigrants. The diarrhea had become an alarming epidemic, and numbers were dying from its effects. Many of those who had not been attacked by the disease, or who had recovered, were returning home.

A BURGLAR AND A HEROINE.—At Philadelphia, early last week, a negro man was discovered in the upper rooms of Mrs. Ellen Rolonds's boarding-house, whilst in the act of securing his plunder, by Miss Sarah Ann Drane, a lady from Virginia, who was visiting at the house. As he made his escape out of the window on an arbor, she held the candle in his face, and then ran down into the yard to intercept him.—As he reached the pavement, she seized him by the wool, and screamed for help, when he drew a knife and cut her slightly on the side, passing through her clothing and cutting the flesh, and made his escape from the heroic girl. From her description of him, the police were satisfied that it was a notorious fellow called "Black Bill" who, on being arrested, was fully identified by Miss Drane.

We copy the following paragraph from the Georgetown, S. C., *True Republican* of the 17th inst.

PICKED UP.—We are informed upon pretty reliable authority, that Mr. Timothy Coward, who resides at Godfrey's Ferry, on the Pee Dee, while engaged in fishing some few days since, heard the cry of a child, and in looking in the direction whence the noise came, he discovered an object floating rapidly down the current of the river. He immediately went in pursuit of the object, overtook and raised it in his canoe, when it proved to be a wooden box, containing a live infant, apparently some three or four days old. The box seems to have been made with great care, well finished, and water proof, and was well lined inside with flannel; and the little equarian—if we may so speak—very handsomely dressed in it "best bib and tucker."

Fortunate for the peace of mind of the diabolical wretch who placed the infant in so perilous a condition, it has fallen into the hands of a humane and generous man, who sets up a claim of *salvage*, covering nothing short of the rescue and keep entire. Mr. Coward would not exchange the little Moses—a name we take the liberty to suggest—for all other babies *afloat*.

BONNET CARRE CREVASSE.—We copy the following from the Mobile *Register* of Monday:

This outlet for the waters of the Mississippi river, joined in opposition to the design and purposes of man, we learn, gives promise of forming for itself a deep channel with well defined boundaries, and becoming a permanent outlet. It will prove a great blessing to our New Orleans friends, one which, by the same token, we fear they will be slow to complain of, than be as thankful for, as they should be.

Some of the effects of this crevasse are of a singular character. The flood of fresh water pouring from the river into Lake Pontchartrain, and thence into the Gulf, has so freshened the water in the vicinity of Shieldsboro and Pass Christian, as to have destroyed the oysters in its course and driven away or destroyed the fish. Then there are various opinions, we learn, as to the effect which the flood of water into the lake may have on that body. By some it is supposed, that the deposit from the river will gradually fill up the lake. Others think the current is so strong that it will keep it open, as the bottom waters of the great river will allow its depth to be lessened. As these are but conjectures, we will offer ours. And it is this —that the crevasse will create for itself and keep up a deep channel, whether the main body or current passes through the lake, and on either side of this channel, deposits will be formed at every freshet, by the eddies, and wherever there is dead water. These deposites will be elevated from year to year by accretions, till the lake is filled up, leaving the deep channel as before mentioned, with the regular outlines of a river with low banks, such as characterize the Mississippi itself. The depth of water in the main channel of the crevasse when at its broken through the levee is now eight feet, and will no doubt be deeper. We have not heard of steamboats ascending it and passing into the river, but we would suppose it very practicable.

HEARTRENDING CASUALTY.—On Saturday evening last, Miss Lucinda Scott, of this place, in passing along the street, met a runaway horse, became alarmed at the speed of the horse, which was greater than she was accustomed to, and, in an attempt to jump off, was thrown with violence to the ground, breaking and severely crushing her ankle. The shock to her nervous system by the accident gave her nervous system was so great as to prostrate it, and all efforts to produce a re-action proved fruitless. After lingering in considerable pain until Thursday morning at one o'clock, she expired.

The death of this most estimable young lady under any circumstances would have produced a deep sensation in this community, among whom she had lived, and by whom she was beloved for her many virtues; but the manner of her death has rendered that event greater in degree distressing. The heart-stricken relatives of the deceased have the sympathies of all in their bereavement.—[Columbia (Ga.) *Enquirer*, 19th.

Official Notice.

THE undersigned is prepared to receive part of Taxes due the State for the year 1849, on Real Estate Slaves, Capital, &c., and to issue Licenses to those pursuing trades, professions, and occupations subject to taxation within the limits of the Fourth Representative District.

Office No. 16 Royal street.

a13 1m THOMAS KEMP, Collector of Fourth Representative District.

EXECUTIVE OFFICE,
Baton Rouge, March 25th, 1850.

Whereas I, B. DUNN, Collector of State taxes for the Fifth Representative District of the city of New Orleans, has applied to me for the cancelling of the following bonds, to wit:

A bond executed by him on the 11th day of February, 1849, as Collector of State taxes for the Fifth Representative District of Orleans, together with Jean Baptiste Jeanjean as surety for the sum of $10,856

A bond subscribed by him on the 11th day of February, 1848, as Collector of State taxes for the Fifth Representative District of Orleans, together with Jean Baptiste Jeanjean as surety for the sum of $7,340 as surety.

And whereas, I, the undersigned, Governor of the State of Louisiana, have received and filed in my office the bonds of the said B. DUNN, Collector for the sum of $5,666 as surety.

2. A bond subscribed by him on the 11th day of February, 1848, as Collector of State taxes for the Fifth Representative District of Orleans, together with George R. Rogers as surety for the sum of $10,856.

Notice is therefore given to all persons interested therein to show reasons in writing at the office of the Governor of this State, on or before the 1st day of the last publication hereof, why said bonds should not be cancelled and considered as satisfied.

Given under my hand and Seal of the State, this 25th day March, 1850, and of the Independence of the United States the seventy-fourth.

By the Governor, JOSEPH WALKER.
CHARLES GAYARRE, Secretary of State.
