OFFICIAL PAPER OF THE STATE

Examination of General Lopez.

Y. Laborde, William Hall, Major J., Griffy, A. J. Porris, T. Morand, S. Maurey, W. Laudriere.

The United Mattee was represented by Mr. Hunton, District Attorney, and the defence by Gen.

J. Henderson, J. C. Larue and L. J. Sigur, Esqu.
The examination of the witnesses was then communicated as follows:

Gen. John Benderson affirmed—The first quiestion asked was, "do you know General Lopes" and was replied to at some length by the witness, who naked if his nawer was to be used to inculpate him. The District Autoriet replied in the negative. The witness is the second of the second of the laboration of the second of the laboration of the laboration of the second of the laboration of the laboration of the second of the laboration of the laboration of the second of the laboration of laboration of the laboration of the laboration of laborat

"What we claim, and desire to have secure to us by electer a nater, is a-recording telegraphic signs on the surface of a revolving metallic cylinder, plate, or other equivalent surface, by means of an acidulated liquid, or saline solidint, or water, held between the point of the wire conductor do the metallic surface, by means of a non-conducting porous substance, or contained in a given or out the surface, but the surface, but means of a non-conducting porous substance, or contained in a given or out the surface, but the surface, in which the recording the surface, and because of a surface, substantially in the manner herein fully set forth, by which the use of every description of paper is dispersed with, thereby saving great expense in telegraphing."

NEW-ORLEANS, TUESDAY MORNING, JUNE 11, 1850.

THE AMERICA'S NEWS.—In the Telestraphie despatch of the Charteston papers, we find the following items of intelligence not be tofore reported: reported:

The withdrawal of the French Army from Rome is believed to be a mere of the Ministry to carry the new election law.

Circulation has brien given to an insulting note from the Ressiah Government, condemning the policy of Great Britain in regard to the Greek question.

The Paris correspondent of the London Times says respecting the difficulties with Eggland, that Lard Falmerston's offer to Conference had been accepted, and the French Freideat had expressed a willingness to accept any applications consonant with the dignity of France. In this Ministers concern with him.

An ingenious citizen of Augusta. Geo., has invented a new Steam Fire Pamp, or Engine, which is said by the Constitutionalist of that city to perform wonders. By the used of this pump, two streams of water can be it arown over the largest three story house, and it will easily consult use noweful streams as
