OFFICIAL.

Mayoralty of New Orleans.

CITY HALL, Office of Municipality No. One, }
Sitting of Thursday, 11th June, 1850. }

SPECIFICATIONS concerning the Wharves and Levee in front of Municipality No. One.—The contractor shall furnish the lumber and keep in good order all the wharves and the levee in front of Municipality No. One, from Canal to Esplanade street, following the windings, viz:

As soon as there shall be a hole in the planking or sand wharves, the contractor shall have the same repaired immediately; and as soon as there shall be a hole in the levee, he shall have the same filled up with hard materials, such as lake or oyster shells, or gravel.

Whenever any portion of the wharves shall have sunk below the level which shall be fixed by the Surveyor, at least two feet above the highest water mark, it shall be the duty of the contractor to have the same raised immediately, either by means of piles, or by making a new work in the manner hereafter explained.

The piles shall be 12½ inches square at the top, and shall be driven from 15 to 25 feet in the ground, at distances of 10 feet from centre to centre. The head of the piles and the caps, which shall be 12½ inches square, shall be framed with 9 inch tenanis and mortices. The joists to receive the flooring and the horizontal and inclined planes shall be 12½ inches square, placed at a distance of five feet from centre to centre, and shall be strongly nailed on the caps with forge nails, 16 inches long, ⅝ of an inch square. The floor shall be of 3½ inches yellow pine or cypress planks, nailed with 6½ to 7 inches pressed spikes. In all that part of the steamboat landing where an inclined plane is necessary, there shall be driven at the outside edge of said inclined plane a double row of piles, which shall receive a cap 12½ inches square, and shall be framed with 9 inch tenanes and mortices. On the top of said cap shall be laid a header cap, 12½ inches square, which shall be bolted every five feet to the two other caps with two screw bolts of one and a half inch in diameter. The four rows of piles of the inclined plane shall be braced every ten feet with 12½ inch brace, which shall be bolted to each pile with a screw bolt one inch in diameter. Mooring posts 12½ inches square shall be driven at every 50 feet, and shall project three feet above the flooring of the wharves. Each mooring post shall be strongly fastened to the piles with two screw bolts of one inch in diameter. The wharves for the shipping shall have two fender caps, one at 3 feet above low water mark, and one at 1 foot below the flooring.

Whenever any part of the levee shall have sunk by the cause of the bank of the river caving in, or by any other cause, it shall be the duty of the Contractor to have the same filled up with river sand immediately after its becoming necessary, and to cover the same with a sufficient quantity of shells or gravel.

Whenever the Council shall deem necessary to have any whole or portion of what is extended into the river; to have the slope of any wharf changed; to have any portion of the batture filled up, in order to form the levee, or to have any new portion or the whole of the levee graded, it shall be the duty of the Contractor to have the same done agreeably to the foregoing specifications, without any extra compensation.

The outside edge of the levee shall, at all times, be kept on a level with the flooring of the wharves.

All the materials shall be of the best quality, and shall be furnished by the contractor.

The contractor shall comply immediately with all orders from the Mayor, Recorder, Surveyor, Deputy Surveyor and Wharfinger, relative to the repairs to the levee and wharves, and in case of any neglect on the part of the contractor, the Surveyor shall be duly authorized to have the work done at the expense and risk of the contractor, and to deduct the same to the Council, which, on satisfactory proof, shall have the right to declare the contract, *ipso facto*, null and void without any application before a court of justice.

The contractor shall furnish good and solvent securities to the amount of $20,000, for the faithful performance of his contract, said securities to be renewed annually, or at the pleasure of the Council.

Payments to be made quarterly, on the presentation o fcertificate of the Surveyor, stating that the work has been executed, and the Treasurer retaining one third part of the amount of each certificate as a guarantee; the parts retained to be paid at the expiration of each and every year.

All bids, specifications and plans shall be given by the Surveyor, who will have the superintendence of the contract.

(Signed) JH. GENOIS, Recorder.
Approved 17th June, 1850.
(Signed) A D CROSSMAN, Mayor.

SUBSCRIPTION.

NOTICE IS HEREBY GIVEN, That Mrs. VAN NOSTEN, Teacher of Piano, Forte and Harmony, Pupil of Pacini, Paris, and of Dr. Lee, will be open for the reception of Pupils, Parents and Day Scholars on the 20th February, prox.

MRS. VAN NOSTEN, having returned from Europe and completed her arrangements for attaching permanently to her Institution teachers in every way competent and accomplished, respectfully solicits patronage for her establishment.

Parents and guardians are invited to visit the spacious and commodious buildings, to which, at the request of several of the gentlemen referred to below, the Seminary has been removed. For further information Mrs. Van Nosten begs leave to refer to her Prospectus (to be found at the Institution and at the principal Bookstores in New Orleans, or to the following gentlemen:

In Plaquemine. — *In New Orleans.*

JEFFERSON ACADEMY.

53 *Bourbon street, New Orleans.*
CONDUCTED BY J. G. LONG.

THE plan of this Academy comprises a general and extensive system of education. Pupils are admitted at six or seven years of age, and can continue till they obtain a complete education, or till they are prepared for their future pursuits in life.

They are distributed into classes according to their standing and advancement.

The premises are perhaps the best to be found in the city, with ample space for exercise and recreation, even under cover in the establishment, and strict attention is paid to the moral conduct and improvement of the pupils.

Day and Boarding School for Young Ladies.

Founded in 1832, by Madame Leitia, and conducted since 1840, by MADAME DESBRAVAUX; Burgundy street, between Customhouse and Bienville streets, New Orleans.

MR. and MRS. DESBRAVAUX, formerly in the Pensionnat street, having removed their institution upwards of a year ago, to more extensive accommodations, assure parents and guardians of pupils, that their new building in Burgundy st. has met their expectations in every respect, and that the system of education, to guard the health of the pupils, and to promote their comfort and happiness.

The Institution provides thorough and substantial instruction in every stage and department of education, from the rudiments to the highest. No pupil is neglect to take it, as it is a fundamental principle of the establishment, to attend to the moral conduct and the age and character of the students, and to regard them as accurate idea of duty and good behavior.

Branches of Instruction.

The English, French, Spanish, German and Latin language. Mathematics, History, Geography, Elements of Natural Philosophy, and Philosophical Science.
