MELPOMENEAN DOCTRINE.

There was a meeting of the Democrats of Melpomene on Tuesday evening last, at which some funny thing were said. One of the speak re, Colonel Sours, for instance, made the as tounding discovery that the yacht America beat the English fleet, purely through the predomi-nance of Democratic principles. This novel nance of Democratic principles. This novel application of political doctrines has completely diagranted our logic. We shall expect next to a rat that the matron in Mississippi who recently presented her lord with five small re-applications. onsibilities at a birth, was enabled to con onsibilities at a birth, was enabled to contibute so extensively to the population of the unity, entirely through the strengh of Demoratic principles, and that if Queen Victorial ere not a Sovereign, she might hope to emustee so brilliant an example of fertility, instead illimiting her quota to the annual production of a Duke or a Princess. The same gifted orar are accompanied that the Democrate was comprehensive enough. We think there must have been a severe sarcasm lurking beneath this declaration. We have known Lemocratic Street Soilers, Democratic Scessionists and Democratic Tariffmen. The creed of the party is capacious enough not only to include any, but thatfa dezen platforms—no matter how continuing and antagonistical. The word "De."

If he stole it from the democrats, we should like to know when and where the their was perpetrated. We would further state, that the True Dela of this city, was, as for our know-ledge extends, the first to suggest the establish-ment of the system in Louisiana, and tout the Bee warmly seconded the recommendations of that journal. Now, as the one is an independent press, and the other a recognized whig or-gan, we are inclined to imagine that Captain Execut will find it rather tough work to sub-LESSEL will find it rather tough world to sub-arantiate the charge of the wligs stealing Free Banking from the democratic 'immer yard. It has been shown by the record that the democratic leaders opposed this mea-sure; that Downs and Sourc and Spranc and Bratty and Winork and Ganner, and a line-of ardent democrate, were inverteately hersile to an ejective judiciary; and that those who supported it were composed of a minority made, up of what were then termed 'radicals'—both

THE INDIA RUBBER CASE.—This morning, in the Unived States Circuit Court, the plaintiff in the great India rabber case of Goodyear ea. Day, moved to assign the case for trial on the 26th of December, stating, as a reason, that the Hon. Daniel Webster had been retained by the plaintiff, and the day named would be convenient to him. The counsel for the defence then moved that the proceedings he stated until the Dryades market, last evening. The following list of officers were nominated by Mr. Rubert

moved that the proceedings be stayed until the decision of the cause involving the validity of the Goodyear patents, now pending in the Dis-the Goodyear patents, now pending in the Dis-trict of New Jersey, which had been prepared at great expense by both parties, and which had been put off by the plaintiffs when the deland ants were ready for trial.

The defendant's affidavit in support of this motion was read, in which he declared that there was an attempt on the part of the rising tiff to take him unprepared and compel him to try the case in Massachusetts, after having procured the rontinuance of the case in N. Jersey after it had been prepared.

The defendant asked for time to reply to the pleantiff a fiffdart, which was granted, and the forther hearing was adjourned till Monday next at 9 o'clock, A. M.
