FOR STRAMBOAT DEPARTURES

THE ELECTION OF MONDAY. Again do we take occasion to admonish the Reformers of the First District of the ungest necessity of vigilance, activity and hard work, if they are antious to obtain a complete and sirnal triumph at the election on Monday.—There is no diagosing the fact that the opposition will put forth all their effects to analyze a victory. They know that the result of the approaching contest will sensure to one of the two parties the control of the City Government for the ensuing year; that it will either snable the Reformers to place in office sensor of their own principles, or will fasten upon the community the domination of that party which, since it has attained power, has proved itself lossification tor aught bet evil. Should the so-styled demonstratic ticket prevail, the Reformers will forfeit

the people but a few weeks since.

We perceive that the enemy boast in advance of what they hope to accomplish. One of their organs says: "Give us only legal, unpurchased votes, and the Democracy will carry the election by a majority of 2000." The Reference certainly contemplate the exclasion of allows: "legal, unpurchased vetes," but they better at very different cooclasion from that amounced by the Courser. Instead of 2000 asports for the Democracy, they expect to brow it in a minority of many hundreds. The tree the number of "legal, unpurchased para," the more splendid will be the triumph the Reform ticket. In fact, it is no secretal.
