NEW ORLEANS, WEDNESDAY MORNING, MAY 31, 1854.

THE DAILY BEE.

RICANIZATION OF CUBA.

NTERESTING DISCUSSION.

Senato of the United States was on the sat, the arcae of an extremely interest constitute areas of the same of the same of the consequence of the same of the consequence of the consequence of the same of the sam

ared that this was the well known the Government, and he did not doubt exispast the power to free every nemaind reprised in the authorities of the review of the discontinuous of the fire every did not despite the total vector of the assertion that there a time, in progress of execution, a rimane pate the lines in Caba.

Viviria Lavid before that I do not not every discontinuous discontinuous

genilemen at the other end of the avenue, whose daty it is to acquire light and give it us the paople. I wish to wait for them. I wish the State Department to give up all its escrete upon this respect, and with that very visw I moved, in the Committee on Foreign Balations, the reaction which my homorable friend, the chairman, [Mr. Mason;] introduced yesterday, and which was adopted, celling on the State Department for the information that will give as light on the subject.

cale, lexiplained the reason the day belofer yesterday, in a short speech to the Senate. If showed that our own countrymen were the men who had then far frientised Cobe, by belified slavers and sending them and selling them are should be the far Africa.

I think my honorable friend is mistaken in regard to the number, I have not yet learned of core than five thoseand heing imported there within the least nitrees months, though they may be, and probably there are many more. I have been apprised of the cases of the vessels, called the Jasper, the Sileans, the General de Kalk, and the Lady Saffolk, notorious piratical alawars. There are doubtless many others, but I cannot believe that anything like a hundred thousand, or one half, or one hearth of that number has been imported into Cuba. But here like the mischief, towards which the attention of the American Senate unglitted for wars. If a strength of the committee on the School Houses.

Mrw Booxs—Our thanks are due the publisher, Hargen & Brothers, through J. B STEEL, No. 60 Camp street, for the following-heavy the core, how I do not pretend to say, we are deeply in terested in having this business of introducing negroes and free negroes from Africa stopped. The most effective way of stopping, is by stopping the alsew trade with our own vessels. There is the place to strike; and desire Congress to strike.

But, sir, the negroes brought from Africa stopped the committee of the propose to a trick; and desire Congress to strike.

But, sir, the negroes brought from Africa step detected by the very means to which my hoorable friend has alluded—by the registries of the rue alsews, the real native born slaves, on every eviate. The police officers with the sate, and, by calling the roll, and examining the expression and experience of an other than the police officers with the sate, and by calcing the roll, and examining the expression and experience of them all, before the propose to the results of the propose to the results of the propose to the results of the propose t

The resolutions were then reterred.

We have given this discussion at nearly full length, on the plain principle of hearing both sides. In this quarter the design of Spain to Mincanize Cuba hasthus (ar pased unchalleng ed. It is otherwise at Washington and elacwhere. We shall probably in pursuance of the principle just announced, publish the views of argument parties, who agree with Mr. Crayton.

BOARD OF PUBLIC SCHOOLS, SECOND DISTRICT.—The new Board of Public Schools, Second District, met lest greeing and made the following nominations by hechanation:

JUDGE BERNEDEZ, President.
