DR. MORSE'S INVIGORATING CORDIAL.

A PHENOMENON IN MEDICINE!

Health Restored and Life Lengthened

—BY—

Dr. Morse's Invigorating Elixir or Cordial.

AT FIRST the properties attributed to Professor A. Morse's Invigorating Elixir or Cordial were looked fabulous. The public often deceived could not believe the compound—and blame it—the discovery. But facts, undeniable facts, testified by witnesses of the highest class and character, are now thronging in over all points. Incredulity is overthrown by a mass of testimony which is positively irresistible.

The Elixir remedies, in all cases, the deplorable evils arising from a misuse or abuse of the various organs, which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble nervous temperament, or deficient in vital power, this is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the worn out victim of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will find in this Elixir a never failing tonic. Infirmities connected with that incomparable renovator. To the man who is conscious of committing that secret vice which proves a complete and unfailing safeguard against that terrible curse. There are many, perhaps, who have so trifled with their constitution, that they think no remedy can be found in the whole catalogue of medicine. Let such persons be assured that a single bottle of this Elixir will not only remove the disorder itself, but

REBUILD THE WHOLE HUMAN CONSTITUTION.

The derangement of the system, resulting to nervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this Invigorating Cordial will have the most complete control. It is prepared to issue policies for Marine, River and Fire Risks.
