MEDICAL.

SANDS' SARSAPARILLA,
IN QUART BOTTLES,
For Purifying the Blood, and for the Cure of
Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt-Rheum, Fever Sores, Erysipelas, Pimples, Boils, Mercurial Diseases, Cutaneous Eruptions, Liver Complaints, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.

This preparation are strongly concentrated with the most active properties of Sarsaparilla, combined with the most effectual aids, the most salutary productions, the most potent samples of the vegetable kingdom; the combination is such that can eradicate and improve the other, producing a compound differing entirely in its character and properties from any other preparation, and survived by its operation on the system when it has been under the influence of the most malignant forms of Scrofula of the most malignant character, have given it a wide and deserved celebrity. It is the most active form in Scrofula and in the class of disease to which it belongs, that this preparation has been found beneficial. It is a specific in many diseases of the skin, and may be administered with favorable results in all; and it has been so fully tested, as well by ourselves as by others, by Physicians, that it has received their unqualified recommendation, and the approbation of the public, and been established on its own merits a reputation for VALUE and EFFICACY far superior to the various preparations bearing the name of Sarsaparilla. The following testimonials are from persons who have already been pleased with it, and expressed themselves perfectly satisfied as to its efficacy in curing the various diseases for which it was used. If more proof were necessary to the skeptical, we could present to the public certificates in this country and in Europe, but the best proofs, that we refer it to the afflicted, are the following, which will be found to the point.

Yours respectfully, R. P. MITCHELL & CO.
