Second-class postage paid at New Orleans, Louisiana, and at additional mailing offices. Postmaster: J. M. B. ...

NEW ORLEANS AGREEMENT OF SCIENTISTS

A friend has placed in my possession the printed report of the proceedings of the New Orleans Academy of Sciences, from March 23, 1933, to February 1934. He modestly says that the Bee has been too busy to publish it. I have, however, read it with interest and it is a most interesting and valuable document. It is a record of the work of the academy from its inception in 1933 to the present time. The academy has held numerous meetings and has published many papers. The report is a valuable record of the work of the academy and is well worth reading. It is a record of the work of the academy from its inception in 1933 to the present time. The academy has held numerous meetings and has published many papers. The report is a valuable record of the work of the academy and is well worth reading.
