DEVICES OF THE ENEMY.

The great issue announced by the Niggerworthippers of the North is that of Freedom or Slavery in Kansas. These lovers of ebony, and baters of the South profess to be pairiotally and disinterestedly actuated by no other motive of agitation than a desire to alies the people of Kansas to deed for themselves whether slavery shall be recognized or rejudated in that inchouse State. But the entire course of the Aboliton party proves their assurances to be but a sorry pretext the relaxitions attempts to finjure and in suit the South. The Kansas question is sage.

The Senates seem the bill t the South. The Kansas question is sagacounty used by them, because it happens to be prominent just now, and popular in the Nerth. The Freshold gentry, like Tapen and Tappels in one of D Israell's novels, understand full well the importance of having good eath broads during election times. It is forcibly remarked by that acoustic servative journal, the N.Y. Express, that if kansas had not turned up as a God-send to the Abolitionists, they would have made just as much noise about something else-and one hundred years to come, they will find a "Kansas" in anything and everything. If was the Kansas was the ownership of 1844, "the Kansas" was the ownership of mnety odd slaves by HENRY CLAY,—and the mnety odd slaves by HENRY CLAY,—and that made Birney Republicantism then. In 1848.
