from witnessing the earliest measures of President COMMNORT. Everything he has since done strengthens the belief that a new era will soon dawn upon that long be-

nighted nation. We know, says the Columbus (Ga.) Ea-

A PARTIES AND ASSESSED.

A PARTIES AND ASSESSE of let, the American candidate, known to be devoiced to the South, who could have been to devoice to the South, who could have been to the cust with as refused. They would make no change whatever in their nomination, and their issued to see the south of the country. As although approached by the American members to do no. They were repeatedly asked to effect a combination successfully to defeat the Abolitonists, are two These are historical ficits. This great Ceser had grown so far on the meats of office, that he would do nothing for the country, to defeat the Abolitonists. We care not, they say, what become control of the country, come what may. For many years it has been ours, and we intend to keep it, if we can. We shall not affiliate with any outside barbarisms, for any purpose that is not to serve the great Democratic party. We are the pure Pharisses; you are the impure. You must come to us and bely us. You may do that; but we cannot soil our garments by helping rout to preserve the Union and to destroy sectionalism, we will preserve the one and destroy the other; but it must be in our way, namely, by allowing us to have all the offices and their isenduments, and be up to our elbows in tréasury pap. This is the way we will saye the country. And in no other way!!!

ation to make it equal to any stage route in the Union.

The Proof and Pivravcawina.—The frog is so succeptible to the action of strychnine, that Dr. Marshall Hall, the eminent English physiciogust, has succeeded in making manifest, in the clearest manner, the five thousandth part of a grain, by means of this test. In a short time the frog became affected by spiams or convulsions, which may be excited by a knock on the table, or stamp on the floor, or even by acracing the table-civili in the vicinity of the state of the
