Such as Constipation, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choking or suffocating sensations when in a lying position, Dimness of Vision, Dots or webs before the Sight, Fever and Dull Pain in the Head, Deficiency in Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c. Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and great Depression of Spirits.

The Proprietor, in calling the attention of the public to the preparation, does so with a feeling of the utmost confidence in the virtues and adaptation to the cure for which it is recommended.

In no new and untried article, but one that has stood the test of more than twenty years in the American people, and its reputation and sales in countries, without any similar preparations extant. The testimony below, given by the most prominent men, and well known citizens, and individuals in all parts of the country, is entirely voluntary, and a part of the immense mass received annually by the proprietors, and the great variety of ailments it has been used for, cannot but satisfy the most skeptical, that it is entirely to be relied on in curing the great complaints it has obtained.

PILES! PILES!! PILES!!!

WE CONSIDER it our duty to all who are afflicted with this distressing complaint to inform them of a remedy which we know to be one of the most respectable citizens, for whom we have the honor to be agent for the "Courier des Etats Unis," and formerly editor of the "Courier de la Louisiane."

NEW YORK, Aug. 28th, 1856.

DEAR FRIEND—Dear sir—I hereby certify that I have had the Piles for more than twenty years; during that time I have suffered much from this complaint, but every thing else could hear of, but all to no purpose. Finally I heard of Dr. Hall's Pile Ointment, and in a few days I commenced using your remedy, and have the happiness to say that in a few weeks I was entirely cured. Having experienced in this instance a miracle, for I am eighty years old, I sincerely recommend them to all who are in the same way afflicted.

EDUCATION.

St. Louis Institution.

313 Dauphin street, between Dorsiere and Hospital

MRS. DERON tenders her thanks for the confidence reposed in her by the public, and informs them she has found in the same prosperous condition, and she hereby reserves the assurance of her zeal and devotion to the interests of their children. Mrs. Deron has been enabled, by her residence in Paris, to adopt the very system in the education of young ladies; she has visited the most renowned Academies, and intends to adopt for her establishment a plan based upon what she has seen.

Mrs. Deron wishes that modest and elegant manners may be imparted to her pupils whilst receiving a solid instruction, which, upon morality and religion, is a word, a complete education, which will enable them one day to guide their own children. She knows that her motives will be appreciated by intelligent mothers, who prefer intellectual wealth to a brilliant success in a public exhibition. The award of premiums in the St. Louis Institute, following a serious examination, will then always be a family fete, but none but parents feeling an interest in the progress of the pupils will be admitted.

Music as well as general instruction, (which will not interfere with the latter,) will be carefully and constantly attended to. Mrs. Deron has engaged in France, for her establishment, the services of an Italian lady, who is an excellent professor and most talented singer. The course of solfeggio and singing cannot fail to be admirably conducted by Mrs. TAGGANNI TARCA, whose splendid voice will always be admired by her accomplished method. Pupils in the city can be taught by Mrs. Tarca at the Institute.

NOTICE.

Mrs. DERON having often been applied to for private lessons by young ladies who could not follow the regular classes, a French class, on the plan of Messrs. Bessy and Levi, in Paris, will be opened on the 1st of January next, three times a week, in the establishment, and be divided into a primary and superior course. Pupils of the establishment will, of course, be the first admitted to the same, and will doubtless contribute to the progress of the newcomers by exciting a generous emulation.

Mothers may attend the course, should they choose to do so. dec4 1m

DAY AND BOARDING SCHOOL
FOR YOUNG LADIES,
UNDER THE DIRECTION OF
MADAM CHARPAUX,
At the corner of Bayou and Claiborne streets

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves, beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Mad. Charpaux will spare no pains to make her seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the seminary.

The English, French and Spanish languages, geography, arithmetic, and in short, all the branches of a polite education, will be taught in the seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madame Charpaux, who will conduct to church and prêmises, (if convenient,) all the young ladies who may have their first communion to make.

Music being become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex artist of the Opéra Comique Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the professor. The study of Piano will precede the performances, when Mr. Charpaux will put by the pupil through the execution of the regular keys and notes, and this will be attended with no other care.

In order to kindle emulation among the pupils, and increase the taste for singing, on the morning of the last Saturday in every month there will be a grand examination and a distribution of rewards.

Madame Charpaux, in order to complete the education of her scholars, has opened a class where will be taught all the useful and ornamental branches of needlework.

During the summer the classes will open at 8 o'clock, and close at 12. Re-open at 4 and close at 6 o'clock, P. M.

During winter, they will open at 8½, and close at 3. Re-open at 4½ and close at 5 o'clock, P. M.

EDUCATION.

DAY AND BOARDING SCHOOL,
DEFENDED THE BISHOPRIC OF
MADAME PARENT,
Corner of Rampart and Du Maine streets.

THIS institution occupies one of the best locations in the city with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are peculiarly well adapted for classes.

There are four fine dormitories with dressing cabinets; also spacious galleries all through the house; a splendid garden, containing a most beautiful view of the city as far as the lakes.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils; she teaches during the hours of class, and superintends the different divisions. There is an ample number of the best professors employed, besides ladies residing in the institution.

Every branch of a solid and refined education is taught in both languages, all accomplishments, such as Drawing, Painting Dancing and Embroidery, &c. The physical education (including moral and intellectual) is conducted by the most competent and capable talent in the city.

It would be needless to say anything respecting the special attention that is paid to the English, it being Madame Parent's native language. The best pronunciation and the proficiency of pupils in the English, French and Spanish languages are taught by well known and competent Professors; but special attention is bestowed upon the French and the English language, on account of their importance.

GIRLS' DEPARTMENT.

A knowledge of housekeeping, being a duty almost indispensable to young ladies, a class of this sort will open, between the regular hours at all times for obliging exercise. Also, a class of needle work, &c. &c. This class does not interfere with the others.

The teachers are earnestly requested to use their utmost endeavors to impart to pupils those precepts of politeness and gentility which are calculated to form well bred persons and the best guarantee for the future.

Corporal punishments are expressly prohibited in the establishment.

Reading, Penmanship, English, French, Spanish, Arithmetic, Book-keeping, Grammar, Geography, English French, Spanish, Mathematics, Natural History, Music, Drawing and Needle work.

A Latin class for the establishment takes charge of the girls' classes.
