Louis and Cinomanti state that the rivers
are rising rapidly at these points. The Upper Mississippi is rising.

IMPORTANT FROM CHINA. SEVENTY THOUSAND MAN REPORTED KHILED.

MORE POISONING ATTEMPTED.

FRANCE.

A treaty of commerce between Russia and France is nearly concluded. Count Morns, with seen return from the Russian masson, to take smearly concluded. Count Morns, with seen return from the Russian masson, to take smearly concluded. Count Morns, with seen return from the Russian masson, to take charge of a department at home.

Leas Nigoteon, it is reported, will acte as that Span will refrain from the Russian masson to take on a much morn moderate schemed as were the issues involved in the Brown of the poisonistic office in the difficulty between Austria and Sandama.

SPANISH AFFAIRS.

There is no abatement in Span of the presentations for war against Mexics, though the Calinder set that Span will refrain from matching of a prevent of the count of the preparations for war against Mexics, though the Calinder set that Span will refrain from matching of a prevent of the count of the preparations for war against Mexics, though the Calinder set that Span will refrain from matching of a prevent of the preparations for war against Mexics, though the Calinder set that Span will refrain from must be desired in the preparations for war against Mexics, though the Calinder set that Span will refrain from must be desired as the set of the probability of the preparations for war against Mexics, the preparation of the preparation of the preparations for war against Mexics, the preparation of the preparations for war against Mexics, the preparation of the prep enough to create some great catastrophe is well known, but how or when no one can divine. The consequence is that the whole community is living in a state of complete and most painful aixiety and alarm. There is a large force there, whost and ashire. Shift, the mode of circumventing their enemy, by the Chinese, is always bridden and secret: and white every street and overy pres is quarted, ether poison, sudden sinnapping, or assessination, sirving werror throughout, in the latter and the Chinese are great adepts, as you will see, if you take the truble to read the newspapers I have ordered to be sent to you. ent to you.

At this place, Macao, on the other hand,
o sincy the most perfect peace and securiyears and securities Portuguese, who have held this
lace now more than 309 years, know the
binese people well. They live on terms of
attust good will—so far as any Chinese can

THE NEW MARITHE CODE—THE CHEWA COMMISSIONERSHEW—AFFERWARD, &c.—Washing ton, April 3, 1857.—I learn to-day from good authority that the present administration does not entirely agree with the preceding one in their views respecting the proposed occasing the next superior of the shollton of the shollton of the right to capture merchant ships by public armed vessels, as well as by privateers, as laid down in Secretary Marcy a cetter upon privateering, it is supposed that our government will insist upon the abolition of blockade, for if Regiand has the right to blockade all our ports and capture our veb seen written to ore Kinisters abroad, to sue pend further action on this matter until they convice other instructions.

William B. Reed, of Philadelphia, was telegraphed to come to this city resterday, and will motern the President by telegraph to the first the city this attenon, and will motern the President by telegraph to morrow whether he will accept. He refused at first, but after much solicitation agreed, provided the family will consent to greed.

MR. AND MES. JERN IDEAM.—It is true (as a consent of the consent to the form) will consent to greed.

manippi Raifrond, respecting the proposed in t

ton Patriot says:

On the night of the 5th inst., there was rain and a considerable freeze, and frost on the morning of the 7th inst., doing great dawn age to corn, cotten and garden vegetation in this latitude, and we fear seriously damaging the frait. The Lake Providence Herald has the following:

The most singular, sudden and severe change of weather ever witnessed in this latitude, was that seen on Sunday last, For several days persons, and up Ughte afternoon of that day, ious, and up Ughte afternoon of that day lowers and the weather the most delightful springfiles weather, when, sit edightful springfiles weather, when, sit edightful springfiles weather from the North and plew in temperature for an hot, and plew in temperature of the weather was ready, not complete this meteorological phenomenon, and from 70 degrees thermometrical ranged, and from 70 degrees thermometrical ranged, and from 70 degrees thermometrical ranged, and some firm one would be seen to be seen and the second manifest detriment of the vegatable king dow. Next morning tee had formed nearly an eighth of an inch thick. Of course, this had a kiling effect upon all tender plants and fruit, as has since been saddy demonstrated in the gardons. fields and orchards in this vicinity. The Lake Providence Herald has the fo
