THE DAILY BEE.
TUESDAY MORNING, AUGUST 3.

The Bee has come through yesterday
day with the news that it is to be
published every day.

THE FREQUENCY OF CRIMES.

The frequent state of homicide which
has occurred in our city within the past
week are to be considered as deplorable
indications of the views put forth by a few
of our citizens. We have no desire whatever
to judge the cases of the unhappy men who are
now in custody under the charge of murder,
and we do not wish to interfere in their
investigation for their alleged crimes. We
shall, however, enlarge on the peculiar
attractiveness of such circumstances connected
with the death of a man, but have been gathered
by the diligent efforts of our
press [but we do not mean the occasion of a killing
one for some other observations touching
the subject]—that the public interest in
such incidents is very great, and the
whole community and the
whole country applying to it a speedy
and correct trial.

The author of this return is to
write to his editor. The latter can be
abated or suppressed only when the former
are all removed. Whence arises
this frequent occurrence? We believe
it is due to the want of a sufficient
code of law, to the want of a sufficient
sense of justice, and the want of a
sufficient number of law enforcement
officers.

THE ELECTION.

Louisville, Aug. 3.—The election passed
unopposed throughout the country, but
few fights, and they were of no importance.
The result was a decided victory for the
Democrats, and the majority for the American
candidate. The State Treasurer is about 170,
Majority. Many of the returns have not
come in, so far as we know.

THE MARKET.

New York, Aug. 3.—Cotton closed with an
advantageous tendency. Flour in wheat
was in all its varieties, place a roll
upon private passes? In public opinion
that grain is the most important, we
are in the lower. Gold and silver are
from front. Freight tonnage.

THE WAR IN SOUTH.

In New York, Aug. 3.—The stock of sugar
in New York, as we learn from the New
York Tribune, is about 100,000 barrels, having
been reduced from 150,000 last month.
