From Yucatan the news is disastrons. We

bined shipments for the sine months \$3,000,0000.

The exports of gold for the first half of the year equal those of the preceding year, and the failing off observable has taken place principally during the months of July. August and September. The people of New York were not prepared for this decrease on the shipments of specie from this port, though repeatedly warned, and the shourdity of expecting that the golden stream could such longer continue to flow from the Pacidic with equal volume. It is true that the fact of a decrease in gold expertation has been questioned by some bungling statusions in this city, who, by some of the unancountable turns of the wheel of fortune, and themselves in command of a few cases of type, but no argument in support of our position was deemed necessary by on. We now state the fact that mainly during the hast three months there has been a decrease of the months of the three months are the state of the formal in New York, of which we received intelligence by the statements.
