THE DAILY BEE. TUESDAY MORNING, DEC. 29. THE NORTHERN MAIL failed yesterday from beyond Washington.

Senator Dorgham seems to have no idea of abandoning the Democratic party—at least for the present. He dealest the charge of recreancy to principle, or disloyally to the administration. He affirms that he alone is consistent, and that his accusers have wandered from the only true interpretation of the Kansas-Nebraska bill. He proclaims as honest difference of opinion with the Presi housest difference of egimen with the President—one which, being a case of judgment and conscience, compels hier respectfully to demur to the views embraced in Mr. Buchanay's message, our which does not necessarily precipide bim from maintaining his relations with the Democratic party uninpaired. Senator Dorocias remains perfectly cool, calm and unembarramed. He sufused to be drawnjinto a personal debate, and by studied moderation of language binute the fierce investives which the offended champiness of the administration burf at him unceasingly. It is evident that this shrewd and consummate politician has taken his course with deliberate foreshought. He relies upon his inducence to carry with him a sufficient number of free State Democratic to prevent the adoption by Congress of the Lecompton the adoption by Congress of the Locompto Convention, and trusts to his undoubted abil

The vantage point remains with Douclas for the present. He has unquestlossibly succeeded in his object, which was to create a schem in the Democratic ranks, and yet remain is steambly attached to the party until the time should be ripe for a formal desertion. We think, however, that the period is hastening with a rapidity scarcely anticipable by Duculas, when he concluded to play false to the Democracy. It is reported that a large body of men have gone to be dete spent. The Southern Democratic absets as-asil Doudas with marked violence, stigma-tizing him as a traitor and a turn-coat. This sort of orim-ination and reorimination will speedily pro-duce its legitimate effects, and at the exist-ing rate of progress, we shall not be surprised if in sixty days borolas takes rank with the Freezelors, and the Northern Democracy-ping with him in the same truckle-bed.
