from the Committee on Pereign Bolations, dudgesed to restrain side refress entrages on the flag and ottimess of the United States, and having special reference to make as here.

In a card published in the Courier yeather day, by sutherty of their Resembles Genmittee, they gave portice that they had removed from the Assessal in debreuses to the force of public options against their action in taking possession of the SIRTH District Courbroom. They further dismost, they any, as they did at their inception as an organization, the entertainment of any political purposes, and declare that they rill hold themselves in readjusts to be engaged by the Mayor as adjunct politomes to nested in ridding the city of thieves and semestics.

The Missouri river has out through the cannot invasions and in a card published in the Course years, and the cannot invasions and in a card published in the Course years, and the course of their fractables, or by abstances of the consideration by the one reported by us to have been achidentally killed in the camp of the Vigi-

by the cose reported by us to have been a coldertally killed in the camp of the Vigiliants are found in the Bitth District Courtroum, which seems to have been used for its general purposes of a hespital.

We can but add that this pressure of public opinion with regard to the search of the court of the courte by the Vigiliants serves to "point a wholesome moral" with which to "adorn the story" of events in the history of the Vigiliance Committee of New Orisens. It establishes the majesty of law mild the chaos of public discorder when it thus raises the presence of Justice lets the proportions of the Pantheon, to stand like the Tumple of the Gods.—"magnifecture and Justice here and the presence of Justice lets the proportions of the Pantheon, to stand like the Tumple of the Gods.—"magnifecture and Justice here and the presence of a larger reproded, and Justice here and reversed.

A number of parties were arrested as empeted Vigiliants, after their exit from the Arassal, but we are glad to notice that Mayor Sammers has issued a positie preclamation prohibiting all arrests except by warrant, and enjoining upon the police the duty of presenting alife all cleanes of our offices.

The Electrical Parties were arrested as each position will not be fully acceptained till the returns are sounted at the Mayor's office the morning. It is said that Mr. James A. White (in addition to those whom we reported in our last) has been elected on the "ladependent licket," over Mr. James T. Hestian, a Amelatant Alderman for the First Ward, Frest District.

Emile Wilts is Recorder elect of the Second District; P. Horveno, Jr., and Jakes of the leves and property of our fallow-sittenic.
