OFFICE, 88 CHARTERS ST.

THE DAILY BEE. FRIDAY MORNING, JULY 30. ADMINISTRATION TRIUMPHS.

The glorification of the present administration is the theme of an elaborate article in the Washington Union of the 24th instant. In response to the interrogatory, "whit has the administration done," the official organ proceeds with refreshing coolness to an incure to the astonished world that Mr. Brivaran has effected four paramount objects which will consign his name to the revérance and admiration of posterity. These triumphs are list, the solution of these in Utah; 3d, the annihilation of fibilioaterium in Micaragua, and 4th, the settlement of the question of the right of search. "We doub!" says the Union, "if the Democratic party was ever presided over by an administration which has accomplished so many important and difficult tasks as the present one has done during the short period of its term through which it has passed!"

We fancy that if the scalpel of a trenchant efficies m should be supplied to these boasted achievements of the President, they will be found reduced to very imaginisant proportions by the operation. It is ludicrous for instance to ace the Union xpper over the efforts when unon the Kansan question, when

m. The issue has been adjusted; let imana wear all the laurels to which wen the shadow of a little. Take the late of a little factor of a little factor. For example, its marvelous y, as evinced by expending the enplay revenue of twenty millions, and intracting a public debt of forty million. Its bold and fearlies policy to lentral America, Mexico and Cuba, 2 New Granada to butcher uns peace come with importing the safe to the late of vising error signt. In the entrol that con-had not, in emphatic and distinct language, antionined the quiet of the country and the consolidation and harmony of the National Democracy, we short-sighted mortals, whose optics are unacled by the patent inventions at Washington, would have entirely failed to discern any evidences of these marvelons discern any evidences of these marvelous results. We should have gone on blindly groping after truth, and fancying that the National Democracy had nearly devioued into a myth, and that its organization was terriby impaired and its harmony knowledge. Las and the anti-Lecompton Democrats are hacking their swords upon the battered scaps of the Union and its followers? What scapp of the Usion and its followers? What it had confision and discord and dissension seem to prevail throughout the land? Have we not the assurances of the "Organ" that all is well; that Democracy is indivisible, united and unconquerable, and that its propects were never brighter? And shall we not put faith in-these validinations, uttered, as they are, by the inspired oracle from its tripod at Washington? Take comfort, then, where a command of good, fat officials.

Comming on the 15th June issued the following proclamation:
