OFFICE, 33 CHARTEES ST.

| Column | C that seidem occurred a period in the financial hatery of the country where the necessity of extreme caution and prudence could to more satisfactorily demonstrated. We note that the delige of this opinion. Commerce of this time occupies a delicate and somewhat critical position. There has been a deal of overtrading consequent upon the reason which followed the panic of 187, and are in the period of the panic of 187, and are in Europe for American breadating. We have so long as there is no enhanced demonstrate in Europe for American breadating. While peace prevailed abroad, this would not have produced any marked perturbation of the money market; but with the advent of war comes a depreciation in the price of the money amplified abroad, this would not have produced any marked perturbation of the money market; but with the advent of war comes a depreciation in the price of the money amplified abroad, this would not have produced any marked perturbation of the money market; but with the advent of war comes a depreciation in the price of the money amplified abroad, this would not have produced any marked perturbation of the money market; but with the advent of war comes a depreciation in the price of the money amplified abroad, this would not have produced any marked perturbation of the money market; but with the advent of war comes a depreciation in the price of the money market; but with the advent of war comes a depreciation in the price of the money market; but with the advent of war comes a depreciation in the price of the money market; but with the advent of war comes a depreciation of the same prevailed abroad, this would not more than the comes and the price of the money and the price of the money market; but with the adventing the money and the formation of the money and the formation of the money market; but with the adventing the money and the formation of the money and the formation of the formation of the money and the formation of the money and the formation of the formation of the money and the format

That the business men of New Orleans he

aid be ridiculous if there were; but ther speculators and capitalists to be chary of fluancial operations, and to establish them on a bass of approved security. The inflation of the money market has sensibly collapsed; it the money market bea sensibly collapsed; it has a realism; and property does not extend the exagerated prices realized a menth or two ago. The enhanced rates of riorfest prove incontestably an increased demand for money; while the offerings in bank extent exceed the income of those institutions. Fortunately for us, the business seating has caused, and there is no regular, coustant and extensive demand for money. Had the war broken out aix months ago, the result throughout the cotton or wing States would have been inevitably disastrons. As it is, there is no positive denier to be apprehended, as long as France and Austria Oght their own battles, and England, Russia and Germany stand aloof England, Russia and Germany stand aloof predict it and of the conflict, and as no man car and man car and as more European powers with the final and according to the conflict and as no man car and a man European powers with the final and according to the conflict and as no predict the conflict and as no predict the conflict and according to the conflict and as no predict the con
