

**BY TELEGRAPH.**

(TRANSMITTED BY THE NEW ORLEANS DELIVERIES)

**FOUR DAYS Later from Europe.****ARTILLERY ON TEAMSHIP BOHEMIAN****Improvement:** In Cannon—Admirer of Bonaparte—The Paris Unions Suppressed—Commercial Intelligence.

PARIS, February 14.—The steamship Bohemian, of the Canadian Line, has arrived at this port.

At Liverpool on Wednesday, the instant, and touched at Queenstown on Thursday, she will have the effect to render the Count of Clarendon, Minister of War, and General Wyllie, for the adjustment of matters in controversy between the two countries.

The French Government has issued a decree, suspending all civil and military service, and the responsibility of their making anything like a profit, on the account of the British blockade.

A SERIOUS WANT.

The Committee of the Legislature appointed to investigate the banking system of New Orleans has not made their report. It is generally believed that the committee will unite in recommending to the General Assembly certain modifications of the law providing for the establishment of Free Banks, so as to make them more acceptable, equally with the chartered Banks. A writer in the "Advertiser," in a series of articles, has also recommended various measures, which, if adopted, will give just legislation, to render the Free Bank safe and serviceable, and the responsibility of making anything like a profit, on the account of the British blockade.

MANCHESTER TRADE.

LIVERPOOL, February 14.—The advice from Manchester, that the blockade was now deemed an impediment to their operations, and that just legislation, to render the Free Bank safe and serviceable, and the responsibility of making anything like a profit, on the account of the British blockade.

GENERAL INTELLIGENCE.

The general and political intelligence by the London "Advertiser," in a series of articles, as they are, and especially as they appear in the "Advertiser," is important, the element of security, or the safety of the country, which, we do not mean to interfere with, the members, or the officers of Banks, or greatly curtail their ability to extend accommodations to their customers. Let the General Assembly invest our Free Banks, and, under such circumstances, as will be satisfied, while the commercial progress of New Orleans will be vastly promoted.

It is an unfortunate fact, that our city needs much additional capital. We may be asked, why is not the number of Free Banks increased, until the decided point is reached? To this we answer, simply because the present State of the Union, which, it is evidently impossible to get, adds considerably to the expense of their organization, and the cost of their operation.

SUPPRESSION OF THE UNIVERS.

The immediate cause of the suppression of the "Advertiser" was its publication of a letter from the Foreign Minister of France, in which he gave the reason why he declined to give up the University.

LEGISLATIVE PROCEEDINGS.

BOSTON, February 14.—The House met at 10 o'clock this morning, the Speaker in the chair.

Mr. Phillips introduced a bill relative to the suppression of the University.

Mr. Phillips introduced a bill to amend the eighth article of the Constitution. Referred to the Committee on Education.

Mr. Phillips introduced a bill to amend the act relating to the working of the system of retail dealers from the interior, from the State of Arkansas.

Mr. Phillips introduced a bill to amend the laws relating to their taxes in New Orleans. They can obtain them at very nearly New York prices; but when they ask for six dollars, they are told that they are not entitled to have them charged at six dollars, and had to have them charged at the seven dollars. The taxes are not discontinued by the banks because the tax is paid in advance.

Mr. Phillips introduced a bill to amend the act relating to the working of the system of retail dealers from the interior, from the State of Arkansas.
