The fine steamer LOUISIANA, Capt. Wm. Lowden, will sail as above, carrying the United States Mail. For freight or passage, having fine accommodations, apply on board, or to

S. FLEMING,
32 and 33 Old Levee st.

Sarsaparilla, or King's Evil.

It is a constitutional disease, a corruption of the blood, and, like a foul stream, it must pollute wherever it flows. Taking in the circulation, it pervades the whole body, and every part and tissue is diseased in any part of it. No organ is free from its attacks, for it destroys the very life and substance of the whole system. The scrofulous taint is variously manifested by inveterate ulcers, by eruptions diseases or by swellings. Such humors are often transmitted from parents to children, and the taint of blood is in this way perpetuated from generation to generation. Such is the origin of the universal infection. What can be done for the relief of those who inherit this calamity? Everything—treatment to children from the third and fourth generation, if needed, is found to be the equal to the task. It will visit the iniquities of the fathers upon the children.

No other combination by deposition from the blood of the system has ever been found to be so effectual as the Compound Extract of Sarsaparilla, in the cure of this afflicting disease. In the glandular complaints, ulcerous affections, or cancer. This powerful purifying, cleansing and invigorating medicine, by its alterative action, on the absorbing vessels, and its consequent influence on the blood, has been proved to be the most perfect antidote to the taint in all other diseases; though not inferior to them in the cure of scrofula, it is its most appropriate and peculiar province. Hence the many remarkable cures it has performed of this terrible malady, which have been publicly known in this section, and are still being made daily in every part of the country. Its power to cure other forms of disease arising from impure blood is not less wonderful, as the following certificates will show. Some of these are from our most distinguished citizens, and the others from persons whose names are well known in their neighborhoods, and whose statements are entitled to confidence.

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy with the medical skill of this age can furnish for this afflicting disease, and all those arising from impurities of the blood. It is combined from the most active remedies of this class of medicines that the vegetable kingdom of this hemisphere affords, and is offered to the afflicted with the full confidence that it will expel the taint of scrofula from the system, and that it will do all that it has ever done. Dr. Ayer's Sarsaparilla is the best blood purifier we can recommend for the cure of not only Scrofula, but Erysipelas, Eruptions, Tetter, Salt Rheum, Blotches, Boils, Pimples, Pustules, Ringworms, Humors, Tumors and Salt Rheum, Mercurial Diseases, Dyspepsia, Indigestion, and Debility, and Affections peculiar to Females. Liver Complaint, Jaundice, Dropsy, Rheumatism, Gout, Neuralgia, and Kidney Complaints, for which it is a specific remedy. It is the best blood purifier that can be taken when a cathartic is required. Being sugar-coated, it is pleasant to take, and is suitable to all ages and conditions.

J. C. AYER & CO., Lowell, Mass.

AYER'S

AGUE CURE,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Bilious Fever, Remittent Fever, Marsh Fever, Periodical Headache, or Bilious Headache, and Bilious Pleurisy. Indeed for the whole class of diseases originating in a bilious derangement, caused by the Malarious or Miasmatic Countries.

This remedy will be found to possess the power, which it exerts the above mentioned with such certainty that it may be relied upon by the afflicted as perfectly certain to have in any quantity. Such a remedy is needed in the practice of every physician in every section of the country where Fever and Ague prevails, and the public have long felt the want of a remedy they could trust. This "Cure" supplies the admitted want, and the Ague may now be conquered. Let the poisoned blood and system be purified, and the liver regulated, and no fear of disease need be entertained. It will not only cure the Fever and Ague, but will expel the disease from the system, and prevent the attack of any other form of disease, if taken on the first approach of the premonitory symptoms. Thousands can now be found in every section of the country who will certify that they have been cured by this remedy of the most distressing forms of Fever and Ague, after all other remedies had failed to do them any good. In many cases a single dose has been sufficient for a cure. Even the lingering chills, which so frequently result from the use of quinine, are cured by a few doses of this remedy. In fact, when the disease is caused by malaria, this remedy will cure it. Travellers or residents in the West, South or in miasmatic districts, will find this remedy a perfect protection against the disease. Those who have once had the disease, and think they are forever rid of it, should have it on hand, for one dose is sufficient to expel the disease, if it has returned, and prevent a second attack. Those who have been long afflicted with the disease, and have become discouraged, and think they never can be cured, should try this remedy. It will cure them, if anything will. It is the only remedy we can offer with confidence to the afflicted, and we do so because we know it will cure. If it does not perform a cure in every case, it will invariably relieve the patient, and in obstinate cases, where it does not cure alone, it will greatly assist other remedies. Hence it is to your interest to try it. Do not be deceived by taking pills or other worthless stuff, but get the best remedy that can be had, and you will be cured of disease. Remember that it will cure you, and that it will not fail.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.

Sold also by

J. WASHUT & CO., 74 and 146 Chartres st.

Proctors' Pictoral Bible.

DR. RADA'S PICTORAL BIBLE—Just Received by Captain Hampton and the Clipper Ship Sunbeam, 11 Steel Engravings of the Most Celebrated Paintings that Could be Collected—and are offered to parties desirous of this kind of work, at a reduction of 25 per cent from the usual prices.

COMMERCIAL.

OFFICE OF THE BEE,
Friday Evening, Sept. 7, 1860.

The first week of our Commercial Year has not been a very active one in our general market though in Cotton we have noticed a continued movement, while prices have been very well sustained on the basis of 10½@10¾c for low but chiefly good middling. In Sugars the only fluctuation of importance has been down, and the connections in Sugar and Molasses are still restricted by limited supplies. Flour has not quite been, and the Grain trade can by no means be improved in the same degree. Provisions are dull, and Groceries are by no means active, but the business has been of a limited character within the range of prices which have been pretty firmly sustained. Freights are dull for Cotton, and Sugar and Molasses, and 1860 to Liverpool, 7-32d; Havre, 1½f; Boston, 1c;
