Dr. Mott's
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An agreement and Scientific preparation of IRON purified of Oxygen and Carbon by combination to Hydrogen. Sanctioned by the highest medical authorities both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impart life of the blood, depression of vital energy, pale and cadaverous sickly complexions indicate its necessity in almost every constitution. Where irremediable in all cases in which it has been tried, it has proved absolutely ourative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Disorders, Dyspepsy, Impaired Constitutions, Scrofulous Tendencies, Consumptive Habits, Chlorosis, Liver Complaints, Chronic Diarrhœa, Hæmorrhages, Intermittent Fevers, Fevers and Ague, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description can fully convey, whereas it would render credible. Invalids so long bed-ridden as to have become forgotten in their own households, have suddenly reappeared in the busy world as if just returned from a protracted tour in a distant land. Persons very signal instances of the lifeless command of female and fevers, emaciated victims of apparent consumption, sanguineous or hemorrhagic attacks, and that combination of soreness and dyspeptic aversion to sit and nourishment for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for seasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, as I lay the air and oxidize. It is excessively tonic, without beers sanguine and exhilarating; and it gently, regularly supervenes in the most obstinate cases of constipation, without ever being aggravated by the use of it, but effecting a thorough cure.

It is the latter property, among others which makes it so remarkably effectual and permanent a remedy in worms, upon which it also appears to exert a distinct and specific action, by dispersing the blood immediately which it vitalizes.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often suffered for the most habitual cases, benefiting the stomach and digestion.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pales, loss of flesh and strength, debilitating cough and resultless hectic, these Pills have proved a safe INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians in the most very gratifying and lamenting instances.

In SCROFULOUS TUBERCULOSIS, it manifested iron has had for more than the good effect of the most assiduously laboured preparations of iodine without any o their well known inflictions.

The attention of female cannot be too confidently invited to this remedy as peculiarly beneficial in the cases peculiar to their sex.

A RHEUMATISM, both chronic and inflammatory is the latter, however, more decidedly—its has been invariably cured. Upon the same principle it relieves the dancing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and emergetic restorative, and its grey green in the new antimonial, and will prove probably the most prompt and efficacious.

As a remedy it has never been equalled in the whole history of medicine which exhibits such prompt, happy and fully restorative effects. Restorative vigour, complexion, rapid acquisition of strength, with an unusual disposition for social life and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing fifty pills; price 50c. per box; for sale by druggists and dealers, and will be sent by mail to any address on receipt of the price. All orders, orders, etc., should be addressed to

For Restoring Gray Hair to its Original Color and Beauty.

Hall's Vegetable Sicilian Hair Renewer, for restoring gray hair to its original color and beauty, has been before the public for the last fifteen years, and has proved itself to be the best preparation ever offered to the public for restoring gray hair to its original color and beauty. It is not a dye, but acts upon entirely different principles.
