### THE HOUSE AND REVENUE.

It is a well known fact, at this moment passing through the mind of the Legislature, that the House has just entered upon the process of amending the revenue bill. The great question with what effect will the measure have upon the condition and progress of the Empire. Will it conduce to an increase in her agricultural produce, will it extend her manufacturing capacities, will it augment her foreign commerce, will it increase the comfort and happiness of the mass of her people, will it preserve the integrity of her vast dominions, will it extend her power, will it subvert her grandeur, will it reduce her to a state of anarchy, or will it preserve her in a state of peace and prosperity.
