AN APPROACHING BALL AT THE MASONIC HALL.—We acknowledge the compliment of an invitation to a grand fancy dress and mask ball, to be given at Masonic Hall on the evening of the 26th inst., by the Hebrew Young Men's Association. We doubt not the occasion will prove a most pleasant and enjoyable affair, and we trust that the proceeds of the affair will accrue to the benefit of the Hebrew Orphans' Home.

THE ACADEMY OF MUSIC.—The youth, skill and daring, as well as the comely and engaging appearance of Master Robert Nicolo have attracted to him the sympathy and admiration of thousands who will rejoice at his reappearance, to-day, in his startling aerial exploits after a temporary withdrawal, on account of an injury received in a late performance.

The Academy continues to draw, with its varied programmes and talented performances, full and satisfied houses.

It will not, of course, be forgotten by the parties interested that a special entertainment, consisting of the leading attractions of the Academy, will be given to-day for the benefit of soldiers, children and family parties.

Capt. Beach, Co. B, 8th Ohio, was captured at Berryville, and driven from camp. Lieut. Cole, Lieut. Mosby, four left dead in town, and three prisoners.

News from Washington.

The Herald, in its résumé of the proceedings of Congress says:

The proceedings of Congress yesterday were chiefly interesting. In the Senate a communication from the Governor of Wisconsin was presented, with a copy of a petition to the Legislature of that State asking compensation for troops mustered through the unfortunate riot of the draft. The House left to continue the governmental business by volunteers till the 1st of March was passed.

A message was received from the President, in answer to the inquiry of the House relative to the recent treatment of Union prisoners by the rebels. The message was accompanied by correspondence from the Secretary of War, General Halleck and the Commissary General. The bill appropriatory of the Emoluments Act was taken up, when a long debate ensued, but, without taking decisive action on any of the important points of the bill, the Senate went into executive session, and on its opening of the doors, adjourned.

In the House of Representatives the Committee on Conspiracies were instructed to inquire into the expediency of amending the act of 1799 so as to refer to a competent court or tribunal, and by a law to inflict punishment for changing the name of the mine.

The Senate bill and Communication of Mr. Woodward, Assistant of the Mint, to refer-ence to the bill passed extending penalties to the 1st of March, 1865.

The bill was passed, but with the understanding that this constitutional scheme is to be submitted to the people for their approval or disapproval. Provisions are to be made for the payment of bondholders. Besides, the payment of the legal-tender notes now in circulation, and the withdrawing, having on a suitable date the interchangeable notes will suitable Gov. Chase to pay that republicans for honesty, without either issuing more legal-tenders or borrowing them from the banks.

Proposed Duties on Spirits and Cotton.

Washington, Tuesday, January 12.—The Committee of Ways and Means, in their report of the bill to impose additional duties on imports, and for other purposes, propose to increase the duty on spirits of every description from 60 cents per gallon to 80 cents per gallon, and on cotton from 2½ cents per pound to 3 cents per pound. The duties on other articles remain the same as in the bill as it passed the House.

The bill was then referred to the Committee of the Whole on the state of the Union, and ordered to be printed.
