Richagord, July 7—The State, according to the latest returns to night, has gone by nearly 40,000 majority for Walker, and there is a Walker majority of 50 on joint ballot in the Legislature. The Walker people elect all the Congressmen except 3, who are Platte, Portar and Norton, colored. and Normal Colored. This complete disaster to the Wells tirket results from, first, the nurshiability of the negro void which, in the country districts, has gone, largely for Welker; and second, became of the father of their calculations in some of the countries bordering, on Tennessee and North Carolina, where the white voles for that ticket were chiefly expected. In that quarter, concludes that were expected to give Wells 500 majority, went against him by 1000.

The Welker State Executive Committee telegraphed the President this morning, congraturating him on the trimmph of his policy in Virginia, and thanking him for his liberaily. Beveral Walker colored men have been elected to the Legislature.
